**Organisation :** Founder of **MahaManan : The University of Man-Making Education**

**Doctrine and Philosophy introduced by him : 'MahaVad' (MAHAISM)** (It is also called the Upanishad of the present times) aimed at real human development and world peace.

**Aim of life:** Bringing about real human development and world peace through mind-developing education.

**Brief introduction :** Multi-talented, free-spirited, humanitarian, wise Indian sage Sumeru Ray aka Maharshi MahaManas is working tirelessly throughout his life to bring real solutions to human suffering, turmoil, sickness, poverty and human-centred problems. As a result of his research efforts to this end, his great philosophy~ doctrine and an excellent Mind Development Curriculum have been developed.

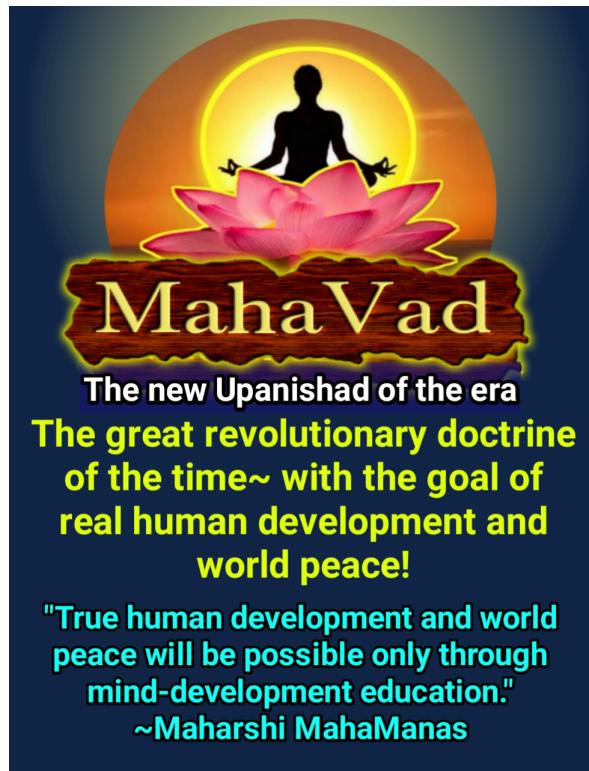

He has also published several books and research papers. A Google search can reveal these and his various activities.

Maharshi MahaManas' great revolutionary doctrine and philosophy of human liberation~ 'MahaVad' (Mahaism) says,

"Most of the man-made problems all over the world ~ injustice-tyranny, oppression, fraud, poverty, unrest, bloodshed etc. are the root cause of people's lack of sufficient knowledge and consciousness and mental illness. Blind-faith, blind-devotion, superstition, violence-hatred-terror are all born from them.

Real human development and world peace can only be achieved if mind-developmental education and training called 'MahaManan' is introduced everywhere. If true human development takes place through mind-developmental education, then most human-centred problems and crises will be solved.

He is the master of rational spirituality and creator of spiritual psychology. Multi-talented creator, researcher, writer, philosopher, awakener, educator, multifaceted free thinker and he is self-dedicated to human development. He is a good mentor. He is the founder and teacher of true self / mind development education system 'MahaManan' ('महामनन' आत्म विकास शिक्षाक्रम) and specialist in mental problems. Most important identity of MahaManas, –he is a humanitarian. His all efforts are– for human welfare. He is a social reformer. He has knowledge in fine arts, literature, Yoga, meditation, art of healing, self-development program, lyric, story, screenplay writing, music composing and film making. He is a well experienced physician of Alternative Medicines.

**Activities** : At his young age, Maharshi MahaManas traveled all over the country in search of truth of life and finally after a long period of penance in the Himalayas, he realized that the root cause of so many sufferings and problems of people is their lack of knowledge and consciousness and illness of body and mind. Most human-centered problems will be solved only if we can get rid of it.

In this extreme crisis of the juncture of the era, with the aim of real human development and world peace, the great philosopher, multi-talented and wise sage (ऋषि) scientist ~ Maharshi MahaManas has initiated a great spiritual revolution to free the entire mankind from suffering and misery. Maharshi MahaManas being sympathetic to the suffering of the helpless troubled human, he has worked tirelessly all his life to alleviate their misery and poverty. In order to remove the darkness of ignorance along with human-centered unrest, bloodshed and poverty all over the world, he sought real human emancipation in the path of self / mind-development yoga called 'MahaManan'. He claims that radical positive changes will come in human life through the practice of sure ways and methods based on his spiritual science. He understood from his deep thinking and experience that the root cause of most of the problems and mishaps caused by human beings is lack of adequate knowledge and consciousness and illness of body and mind. Most problems will be solved if the human mind develops enough. That is why he has created an excellent and incomparable mind-development education system, its name is 'MahaManan' education.

If we can implement his multifaceted revolutionary works and thoughts, then there will surely be a radical change in human life.

He pioneered a new genre of modern psychology called MahaMansian psychology.

**The main goal of  
human life is to move  
towards the goal  
of becoming a fully  
developed human  
being along the path  
of development of  
consciousness.**
