

Errata and Corrigenda, September 1 to October 19, 2021

I've found the following errors in the first printing of *An Introduction to Old English*. Some of these have been sent to the publishers for corrections to the second printing. Others were discovered *after* the errata/corrigenda list had been sent, and will need to be entered into both first-printing and second-printing copies.

I will welcome further suggestions identifying errors, and as they accumulate I will post them here. Please contact me at: jdmevans@uga.edu with anything you find. Many thanks.

p. 73, bottom – line before *duru* & *hond* paradigm: change *hand* to *hond*

Feminine *u*-stems include such nouns as *duru* and *hand* :
> Feminine *u*-stems include such nouns as *duru* and *hond* :
