

MahaManan

The only scientific way to real human development and world peace!

Mind-developing education is the only scientific way to real human development.

Real human development and world-peace can only be achieved if proper mind-developmental education and training are introduced all over the world.

MahaManan Kendra

An excellent incomparable mind development education centre

Preface

In this dire critical condition of the juncture of the age, to remove the sufferings of the people, and to establish real human development and world peace, the great Indian sage~ Maharishi MahaManas has appeared as the need of the time.

Many consider him to be an incarnation of Lord Shiva. Pure spiritual renaissance is about to take place through an epoch-making revolutionary movement on the path indicated by him. If you are willing to join the great revolutionary movement to create a conscious-illuminated new age freed from the darkness of ignorance and blind-faith, you are welcome.

Sumeru Ray alias Maharishi MahaManas who has been working tirelessly almost all his life for real human development. Here is the essence of Maharishi MahaManas's logic and science based modern doctrine called 'MahaVad':

"The root cause of most man-made problems, suffering and misery is lack of sufficient knowledge and consciousness and mental illness. Blind faith, blind devotion, superstition and violence-hatred-terrorism have all arisen from that."

"Real human development and world peace can only be achieved if proper mind development education and training are introduced all over the world. And if real human development takes place, then most of the human-centered problems will be solved."

True Spiritual Revolution (not so-called religious spirituality) is the only way to real Human Development and World Peace. And Real human development and world peace can be achieved only through mind-developing education. ~Maharshi MahaManas

For this purpose, after about fifty years of research and effort, Maharshi MahaManas has developed an excellent mind-development education system called 'MahaManan'. If you are interested to know more about this, please do a Google search: Maharshi MahaManas, MahaManan, Sumeru Ray

Mind-developing education can be imparted in two ways. The first is through institutional education and the second is through humanistic religious education.

Abstract :

In this extreme crisis period of the age, with the aim of real human development and world peace, the great philosopher, multi-talented wise sage and scientist ~ Maharshi MahaManas ~ has initiated a great spiritual revolution to free the entire mankind from suffering and misery.

Pioneer of rational spirituality and devoted to human welfare ~ Sumeru Ray alias Maharshi MahaManas ~ To dispel the darkness of ignorance along with human-centered unrest, bloodshed and poverty all over the world, sought true human liberation in the path of Atma-Vikas-Yoga (self / mind-development yoga) called 'MahaManan'. By practicing his sure education and methods based on his spiritual science, radical good changes will come in human life.

The key word of Maharshi MahaManas' revolutionary doctrine of human liberation ~ 'MahaVad' is: Most of the man-made problems around the world~ injustice - tyranny, oppression, fraud, poverty, unrest etc. are the root cause of people's lack of sufficient knowledge and consciousness, and mental illness. Blind-faith, superstition, hatred, violence, terror, all sprang from that. The only solution is

'MahaManan' 'महामनन' भावना-विकास एवं योग या योग-विकास योगानुषासन (mind-developmental education) and practice.

Maharshi said, real human development is possible only through proper भावना-विकास योगानुषासन or mind-developmental education. It is for this purpose that Maharshi MahaManas has developed a great and unparalleled educational system for creating a well-developed human beings with 'MahaManan' Meditation 'महामनन' भावना-विकास (self-meditation) training for true human development and world peace!

Real human development and world peace can be achieved only if 'Atma Vikas Yoga Sikshakram' अत्मविकास योग सिक्षाक्रम or mind-developmental education and training called 'MahaManan' is introduced everywhere. If true human development takes place through this mind-developmental education, only then will most human-centered problems and crises be solved.

He soon aspired to build a world-class university of reasonable spirituality for true self / mind-development education and self-meditation training. Maharshi called upon all conscious people to extend their hand of cooperation to make this great initiative of human development a success.

Along with that, he is also appealing to the government, to protect the next generation from the terrible difficult situation of the future, to make them healthy, rich in knowledge and consciousness, sufficiently developed people, that the government should include this psychological education in the curriculum of every school.

At his young age, Maharshi traveled all over the country in search of truth and finally after a long period of penance in the Himalayas, he realized that the root cause of so many sufferings and problems of people is their lack of knowledge and consciousness and illness of body and mind. Most human-centered problems will be solved only if we can get rid of it.

Then he developed an excellent human development education system through long-term pursuit and research. It is named - 'महामनन' भावना-विकास योग योगानुषासन ('MahaManan' self-development curriculum). After that he came down from the Himalayas and started teaching

He has written several books with the aim of human development through mind-development. His books are available on other platform including Amazon. If you

search the internet, you will find many of his articles, podcasts and videos on human development. In 2021, his research and discoveries on six important topics were published in various international science journals. Besides, he has been giving meditation training to many people in different places almost regularly.

Through the Internet, his human development activities and his great doctrine of human liberation are gradually spreading all over the world. And many people have gradually taken his devotees and disciples and started practicing 'MahaManan' Atmavikash Yoga for mind-development.

Maharishi MahaManas has been devotedly working for human development in private, as far away from the limelight as possible. Gradually the number of his students is increasing. More and more media are getting interested about him. At times he also provides study-skill development training to students for their education and development.

Many people of different ages continue to benefit from receiving training in Mind Development and meditation from Sumeru Ray aka **Maharishi MahaManas**. They are becoming increasingly healthy and peaceful, and rich in knowledge and consciousness. As people become aware of their body and mind, they are becoming aware of diseases, hygiene, climate, society and social duties. Humans have become quite developed. They are also able to solve various human-centered problems.

Introduction:

Before proceeding to the main topic, it is necessary to shed some light on the great teachings of **Maharishi MahaManas**.

'MahaVad' (Mahaism) : The great doctrine of this time. Many call this doctrine the New Upanishad of this age. It is written by **Maharishi MahaManas**. The only way of human development and world peace!

Maharishi MahaManas' great revolutionary doctrine and philosophy of human liberation~ 'MahaVad'. The essence of the MahaVad is:

"Most of the man-made problems all over the world ~ injustice-tyranny, oppression, fraud, poverty, unrest, bloodshed etc. are the root cause of people's lack of sufficient knowledge and consciousness and mental illness. Blind-faith, blind-devotion, superstition, violence-hatred-terror are all born from them.

Real human development and world peace can only be achieved if mind-development education and training called 'MahaMnan' mentioned in the great doctrine of the age ~ 'MahaVad' is introduced everywhere. If true human development takes place through mind-developmental education, then most human-centered problems and crises will be solved.

Due to lack of knowledge and consciousness, we perceive or regard ourselves as an egoic entity, as an independent and self-governing doer. Due to lack of sufficient knowledge and consciousness, we do not realize that our existence, all our thoughts, behavior and activities are dependent on many things and are being guided by many events.

All human-centric problems started from here. We don't see the root cause of the problem. We don't look at the root of the problem. We blindly search for solutions in its branches.

Many events are born from one event. Many more events are created from those events. Again, countless events were born from those events. In this way numerous events continue to be created in a consistent manner. Our present existence is the product of that traditional course of events. Not only that, we and all our activities are nothing but part of the universal stream of events. But our ignorant mind is not ready to accept it.

From that primordial event at the beginning of the creation of this universe, all events originated and everything was created. Everything that has happened here ~ is happening and will happen in the future ~ is automatically determined by that primordial event at the very beginning of creation. This predetermined and unchangeable course of events is what we call destiny or fate.

If you are interested to know about fate in detail, please read my research paper published in an international science journal. Also Google search: What exactly destiny is : Maharshi MahaManas.

A revolutionary religion of human development called 'Mahadharma' is based on this doctrine.

Why are we drowning in the darkness of so much ignorance? Where is the main obstacle to the development of our consciousness? Today is the time to find out.

In fact, that is religion or Dharma, by holding which method and system and by practicing which it is possible to become a developed human being with a healthy and developed mind. By containing which system It is possible to become a human being rich in knowledge and consciousness, that is religion. That which diverts us from the path of development of knowledge and consciousness, leads us astray, turns us into devout superstitions, blind-faith, makes us dependent instead of self-reliant through self-development, can never be the religion or Dharma of human beings.

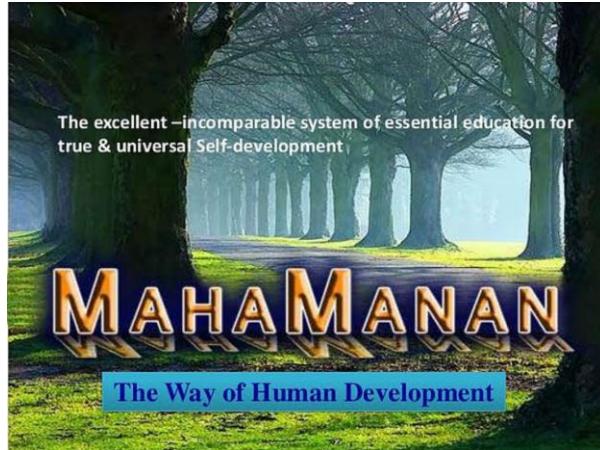

Many of us consider our own religion to be the best religion. Do you ever think of a question? If our religion is the best religion, then why that religious education and practice could not make us the best mankind even today? Why can't it make us people with a developed mind? Why are we still in the darkness of ignorance? Why are we repeatedly attacked by foreign heathen people? Why do we have to suffer the torture being subjugated? Why do we have to live by adopting the knowledge and science of different religions?

We are so obsessed that we forget to ask questions. Self-criticism has become painful to us! We prefer to remain infatuated with false self-satisfaction and consider our ultimate destiny to move toward destruction.

We say, "We want the truth". Actually we don't want the truth. We avoid the truth for fear of endangering our existence. Because our existence is based on lies! We take our beliefs and lies as truth.

Good news! In this deep crisis of the juncture of the age, for the purpose of establishing real human development and world peace, to save us from the darkness of ignorance, the true religion of human ~ 'MahaDharma' has appeared as the liberating sun. We have to welcome it for our own good. 'MahaDharma' is not a religion like conventional religion. Practicing self / mind-development yoga (माहाधर्म-साधन-साधना योग ('महाधर्म')) for development and wellness is to practice this religion.

Part~ 1

MahaManan

This is to introduce you to an excellent and incomparable system of essential education for true human development and world peace!

We can see, if we look around carefully with a little watchful eye, the whole human race is going through a terrible crisis and severe illness. And as the days go by, the intensity of this misery and suffering is increasing.

To this day, no one has been able to stop the inhumane acts of injustice, corruption, oppression, rape, deception, violence, hatred, cruelty, destructive activities, etc. that are perpetrated by people all over the world. Religion, monarchy or politics, administration or any powerful system or organization has not yet been able to solve this difficult problem of mankind.

The root cause of most man-made problems is the lack of consciousness and knowledge. The blind-faith, blind devotion, superstition and mental illness all arises from that.

The only solution to this is to introduce the fundamental man-making education system in every school for the students to become rational in the right way and gain mental development.

At the same time, rational and mentally developed students have to be given special certificates according to their development standards. If these certificates are considered valuable in the workplace or in getting a job, people's interest in

mind-development will increase. If students in school-college learn and practice to know and develop mind and be rational, gradually they will be able to become free from blind-devotion and blind-faith, superstition.

At the same time, proper education and treatment should be provided by identifying students who are prone to crime in a scientific manner or by investigating behavioral errors. Only then will good change come.

True mind-development is not possible without soundness of body and mind. For that, it has a medical section of alternative treatments.

By setting up mind-development centers for adults in different areas, explaining the benefits of mind-development education and practice to everyone, they need to be associated with this learning and practice center. for this purpose the 'MahaManan' mind-development curriculum has been developed. 'MahaManan' is an excellent - incomparable teaching method of mind-development education with essential basic education for real human development and peace.

Need your help to make this great human development initiative a success.

'MahaManan' : The excellent – incomparable education system of true mind- development for true human development and world peace. True Education is the only solution. 'MahaManan' is true education which helps us directly to be fully developed human beings. True education makes us enough conscious and wise gradually. Also it makes us able to solve our most problems. Therefore we need true education for human development.

I would like to introduce you with an exceptional initiative of human development and peace, which will be implemented through an excellent –incomparable system of essential education for true and overall mind-development –world-wide.

'MahaManan' is an excellent – essential and fundamental education for true mind-development (ManoVikash SikshaKram) and human development. 'MahaManan Kendra' is the man making education centre of that system of education.

Now that's what we want to do, we want to build an international standard mind development center, that is 'MahaManan Kendra'.

We think, development of humankind or a nation is possible only through the development of individuals, also we think, customary or formal academic (school – college etc.) education is not sufficient for true development of human beings. For that, we need such an uncustomary (non-formal) basic human development education which can help us to be fully developed human beings.

It is known to every conscious person, the cause of most problems – disturbances and crimes of human society –is lack of knowledge and consciousness and mental illness. And it happens because of the lack of self- (Mind)development education. Therefore the need of this education is undeniable.

The development of the country and the entire human race is possible only through the development of the individual unit. And for that purpose 'MahaManan' activities have started.

'MahaManan' mind-development education is the scientific way to alleviate global poverty. Lack of sufficient knowledge and consciousness is the root cause of poverty.

By giving all kinds of facilities, and necessary help, to a poor man with a little knowledge and a little consciousness, may be his/ her temporary poverty relief, but for a long time he will not be able to escape poverty.

If a rich man who has a lot of wealth, either hereditarily or otherwise, has a shortage of knowledge and consciousness, soon he could lose all his wealth and become poor, unless he accepts the advice of a wise person. However, it is important to have some knowledge in order to perform the tasks of the wise person.

One needs to have sufficient knowledge and consciousness to constantly make money and resources and protect them.

It is not that if only economic development or economic freedom is achieved, human development also will happen.

As economic development progresses, human life can be temporarily comfortable, human wealth and human civilization can be improved, in conventional education, people can become highly educated, but it will not develop the human mind. And if the conscious mind does not develop enough, people will lose all their wealth and fall into poverty again.

Human development means we understand the development of the human mind. Development of consciousness or conscious mind.

If the human mind does not develop, no matter how glamorous one looks, human beings will remain in the darkness in which they were.

Religious obstacles in the way of the spontaneous development of the human mind, the blindness, blind faith, and superstition that comes from ignorance, by removing these, if we can educate people in true mind-developmental basic education, if we can train them in mind-developmental practical procedure, then only human development will continue to develop.

If human (mind) development does not happen, all other development will be like pearl-garland in the monkey's neck. And if human development happens, then other areas will continue to develop.

The only way to alleviate poverty is to launch the 'MahaManan' mind-development curriculum extensively in all the countries which is performed by me. And at the same time, poverty can be eradicated if we can establish 'ManavDharma' (मानवधर्म) in all.

This system of education removes ignorance, superstition and blind-faith from the human beings, and makes people aware and conscious as well as educates them in the essential basic education of life.

The root cause of poverty is blindness, superstition and blind-faith resulting from poor knowledge and low consciousness with physical and mental illness.

Not only free from poverty, human rights will be effective only when most people have enough knowledge and consciousness. In addition, the scarcity of knowledge and consciousness are responsible for most human-caused problems, sickness and most awkward incidents.

The conventional religion, politics, economics, administration, conventional education system, and any of the existing systems are not able to solve this problem.

In this context, I would like to say that communism is not a solution to this problem. Many people say that if communism is established in human society, it will be solved. But that is not the real truth.

Communism can only be successful if the knowledge and consciousness of the whole human race reaches a sufficiently high level and achieves almost equality. Imposed communism is just an artificial system. In that case only the people of the opportunistic leadership class will be benefited. In the way of communism the development of ordinary people will not happen.

Communism is an artificial system imposed on human beings. Drowning people in the darkness of ignorance, Any artificial religious or political or social system imposed on them can never succeed. Can't be good for people.

So, not illusory communism, it needs 'MahaDharma' based on 'ManavDharma' (humanism), and it's great doctrine of the modern times: 'MahaVad'. Which helps people to be sufficiently developed human beings. Only developed people can build the greatest social order. There is no need to impose any artificial system on it.

**To get rid of this extreme crisis,
Human-development-based religion~ 'MahaDharma' is the only way. This religion is not the same as conventional religion. This is a scientific method of true human development through an excellent and incompatible mind-development education.**

Our slogan is ~ 'ମହାମନାନ ମହାମନାନ' 'ମହାମନାନ ମହାମନାନ'

We want to enjoy our life much more nicely–, want to be successful in life – want to gain happy, prosperous – peaceful, joyful, beautiful, healthy life. We want to transform our hopes –ambitions into reality. Want to see ourselves as fully developed human beings, along with our development –we want to make our children fully grown human beings, want to develop them properly. Want to bring up as complete human beings in knowledge, good qualities, behavior, true education, capabilities.

If your demand is the same, if you want to enjoy a happy –developed, healthy, beautiful life, you can gain that through 'MahaManan' education syllabus– the Maha (great) mind-developmental educational program. Even with your education, side by side, the regular learning and practice of 'MahaManan' ('Maha-Mano-Vikas-Shikshakram') with 'MahaManan-Yoga' procedure, the overall development and along with it, the examination's result also performed very well.

To make this epoch-making system reality, if many people come spontaneously, only then will real human development be possible with poverty alleviated.

An appeal to conscious people:

To make a better world –to make our life blessed –to fulfill oneself, to remove the inhuman activities and poverty from our society, we have an excellent – incomparable system of essential education for true & development.

The creator of this system of education is Maharshi MahaManas. We are desirous to establish the way of overall development of human beings –world-wide, and also we are desirous to establish a true Human Development education center of international standard.

We need like-minded persons for our true Human Development program. If you are interested in this program, please extend your helping hands to make it possible.

To know more, please search: MahaManan, MahaDharma

'MahaManan' : Just it needs to be established; –the people are ready to receive it.

'The call to be proper Human being' is not any new saying. But in reality, there is no any education center, any path or method, before us. Now that path has been shown by Maharshi MahaManas –the great sage of the modern times (search– MahaManas, MahaManan, MahaDharma). That great path of true and overall self-development and universal mind-development is 'MahaManan' or 'Maha Atma-Vikas-Path'.

This excellent education (theoretical and practical) of human development is so beautiful that if any school/college-student receive it, even a short course of this education, the examination result of that student will be better. Along with that, improvement of behavior of that student will take place.

By receiving a full course of 'MahaManan' education, development of one's own self or mind comes into reality. In case of aged persons, being free from many psychosomatic and mental problems, they will be able to advance towards the path of true self-development, along with self-purification and self-realization.

Besides that, those who are tending to crime can come into normal state and able to turn into developed soul by through this education with a special course of 'MahaManan'.

To grow a peaceful– developed society/country, 'MahaManan' is the excellent – incomparable –essential education for all.

Make your life brighten and more bloomed, also bring in your life an unprecedented amazing lucky change, through the path shown by great sage Maharshi MahaManas.

'MahaManan' ('Maha Atma-Vikas-Yoga') educational program is not only a system of education of theoretical knowledge of self-development or mind-development. It is formed by combination of different sciences, or spiritual science, –modern psychology, spiritual psychology and many more methods invented by MahaManas, with practical or applied teachings of reasonable spirituality, with 'MahaManas-Yoga' and newly invented 'MahaPathy' complete treatment method of Maharshi MahaManas, and also different alternative systems of medicine.

'MahaManan' that is 'Maha Atma-Vikas' education is a simple and easily comprehensible –effective –impeccable syllabus of true & overall mind-development or self-development with basic essential education to higher education of true (reasonable) spiritual knowledge.

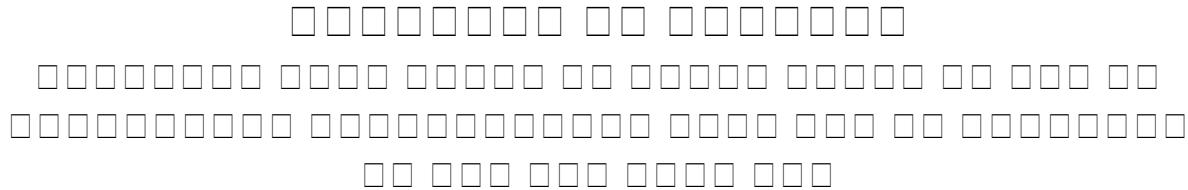

True & overall self-development with real mind development isn't possible without universal soundness. For that, the 'Mental Treatment' is an important part of the 'MahaManan' education.

One who is (proud of being human) a combination of body and mind, if that one is ignorant of that body and mind, that one cannot be called a real human. That one is less or incomplete human. The basic education of 'MahaManan' helps one to become a well-developed human being in all respects.

By following and practicing which teachings (with practical~ applied methods) one can be developed in all respects, is 'MahaManan'

'MahaDharma' (The Great Religion) very briefly

'Manav Dharma' is the Basic natural Religion of human beings or Humanism. That religion is practiced spontaneously without any effort for mind-development and human development. The surest way to a better life.

'MahaDharma' is the embodiment of this abstract natural human religion~ 'Manav Dharma'. MahaDharma has emerged to bring people back to their normal religion for real human development and peace.

Summary: "Because you have a conscious mind~ you are human. But your (conscious) mind is not yet developed enough. To become a well-developed human being, you need to develop this mind. And that is your primary religion."

"You were born as a human being, so the first and foremost goal of your life is to become a full-fledged human being. With the goal of life: to know yourself and this worldly system, always try to be alert. Be diligent to make yourself a real and all-round developed human being."

"Whether you belong to a conventional religion by birth or intention, your first identity is that you are a human being. As a human being, your main and fundamental religion is natural human religion (ManavDharma). And this normal human religion is the MahaDharma. The main thing is to develop the human mind with overall well-being."

"We are here on an educational journey. Gaining high to higher consciousness is the underlying purpose of human life. Here, the more we become conscious through knowledge-experience, the more we will benefit. From a spiritual point of view, nothing will go with us when we leave here, except the consciousness."

First of all we have to understand - what this 'MahaDharma' really is 'MahaDharma' is natural human religion, our basic religion - the religion of building people. This religion is not comparable to any other conventional religion. God and faith are not the foundation of this religion. It is based on logic and spiritual science (reasonable spirituality). MahaDharma is completely different from the conventional religions.

Publisher's dedication

A Religion for Real Human Development and Peace.

Today, I have tried to introduce you to a new religion based on 'Manav Dharma'/ humanism, the groundbreaking Religion of self-development or mind-development, that is, groundbreaking religion of human development. In this acute crisis of the the juncture of the epoch, a new religion has emerged, in response to the demands of the times, to re -establish our self-evolving fundamental religion — ManavDharma/ humanism by eradicating ignorance and blindness, the root of most complex humanized problems. The name of the religion is MahaDharma.

'MahaDharma' is the embodiment of abstract basic human religion ManavDharma.

This religion is not a religion based on superstition/ blind-faith and godliness like the traditional religions. 'MahaDharma' is the embodiment of abstract human religion: the real human developmental religion. The emergence of Manav Dharma- MahaDharma is to remove the darkness of ignorance and to enlighten the world with the light of consciousness. This religion has spread all over the world through internet and social media. Many aspiring for self-development rationalist liberal thinkers have gradually become fans and followers of this religion. The proponent of this religion is - Maharshi MahaManas.

ManavDharma/ Human religion: is the real religion of human: the original religion. Religion of self-development or Mind-development. We have forgotten that ManavDharma (human religion) and are obsessed with various misleading religions like ignorant-blind. If we look around with a little conscious eye, we can see that we are moving towards terrible consequences day by day. In today's crisis, we need to re-establish ManavDharma (the basic human religion) and practice ManavDharma (basic human religion of Mind' development) in order to escape this catastrophic situation. The main duty of every human being is to become a real human being that is fully developed human being. The religion to be practiced to become a fully developed human being is 'MahaDharma'.

ManavDharma (Humanism) is not just about being honest and compassionate, it is about becoming a full-fledged human being. A developed human being is spontaneously honest and compassionate. The real human development and the establishment of peace in the world will be possible only through the practice of ManavDharma (the basic human religion of self-development). An auspicious radical change is coming in human life along the path of ManavDharma- Mahadharma.

MahaDharma is the epoch-making religion based on human religion based on blind faith-free human-developmental science of reasonable spirituality. MahaDharma is the great revolutionary wave of the present age for real human development. This is the best way to have a good (healthy, peaceful and well developed) life. We urge the enterprising people of the truth-loving rationalist wayfarer of self-developing path of knowledge to embrace the great religion, and to build organizations on the side.

The root cause of most of the human-centered unrest, problems and crises that are becoming more and more terrible is the lack of condign knowledge and consciousness and the illness of body and mind. And, the only solution is to practice 'MahaDharma' completely.

Accept 'MahaDharma' for mental development and overall improvement including body and mind health, and practice mind-development-yoga. Even without abandoning the previous religion, ManavDharma (basic human religion) can be accepted. This religion is not like the conventional religion. The main purpose of this religion is to make people aware and healthy.

The real human development and the establishment of peace in the world will be possible only through the practice of MahaDharma religion. An auspicious change is coming in human life - along the path of MahaDharma.

There is nothing that can be done to alleviate the Fatal events that are taking place all over the world every day, and the perverted — insane form of human beings that we are witnessing helplessly, no conventional system like religion, politics, administration etc, unable to solve it.

Only a (reasonable) spiritual revolution can save us from today's catastrophic crisis — from this catastrophe to the next catastrophic outcome. Hopefully, however, a strong wave of true (reasonable) spirituality is growing behind the scenes. And it's coming soon. We must immediately welcome it - in our own interest.

From the point of view of true spiritual science, lack of sufficient consciousness and lack of knowledge or ignorance is the main cause of most misery and problems. This is possible only through the practice of a proper and holistic mind-development curriculum based on real spirituality, including the teaching of real (reasonable) spiritual sciences. The development of the country and the

whole human race is possible only through the development of individual unit. And for that purpose~ MahaDharma.

The great doctrine of Maharshi MahaManas: 'MahaVad' has brought the tide of real and rational spiritualism. The greatest sage of modern times: Sadguru Maharshi MahaManas: The true philosophy of MahaManas and the guidance of his path of proper self (mind) -development is the path of our real liberation. The only sure way out of this extreme crisis of ignorance. There is still time, if we can still move forward on that path, then the last will be saved.

Everything I say here is from his advice. Not only that, this book has been prepared by taking some selected parts from Maharshi MahaManas's book 'MahaVad' and combining his various works spread on the internet.

'MahaDharma' does not teach us to be dependent on anything unreal. Teaches to be self-aware, to be self-reliant. 'MahaDharma' does not teach us to believe like the ignorant-blind, it teaches us to acquire pure knowledge.

Participate in this great work for the real development of ourselves and mankind. The more the light of Mind development teaching of MahaDharma spreads around, the more the darkness of the mind— ignorance-blindness will go away. The more we can achieve peace, well-being and self-development. We can have a better life. To make this great human development initiative a success, actively participate and extend your helping hand. Thanks.

An introduction about 'MahaDharma' written by a monk disciple of Maharshi MahaManas

As human beings, we are all born with a simple basic human religion, that is 'ManavDharma'. But society and family deviates us from that humane, self-developing natural religion by misleading, by imposing on us a religion based on blind faith a belief-based religion, we deviate from the path of spontaneous natural development and become blind due to ignorance.

In this way, over the course of thousands of years, we have come a long way from the goal of becoming a fully developed human being. The development of the mind and people that was supposed to happen for so long has not happened even today.

For the purpose of gaining overall humanity through gradual self/ mind-development to re-establish the almost forgotten 'MahavDharma' (basic natural human religion), to bring man back to its mainstream, has manifested itself as the need of the time - 'MahaDharma'. The embodiment of abstract ManavDharma is the 'MahaDharma' (greatest religion).

In order to understand this correctly, one has to move forward towards the realization of truth with a free mind with neutral reasoning and judgment, without having to compare the pre-existing reforms - free from blind faith, conventional religions - scriptures - and the statements of different people. This is the path of pure knowledge.

One thing to note here is that along with easy-going instincts and easy-going religions, we also get some inferior instincts, some primitive or brutal or pre-human religions at birth. Now, they need to be illuminated, not through the process of repressing evil, but through proper education and treatment, and in the light of wisdom and consciousness~ those dark parts.

That which is made possible by the wisdom, knowledge-experience, education and advice gained by the truth-seeking people who are far ahead in the path of ManavDharma. Through the practice of some special ways or methods invented by them. This is also a part of ManavDharma (basic human religion) or 'MahaDharma' religion. This is never possible in a faith-based and deceptive religion.

(This introduction has been prepared with the first part of Maharshi Mahamanas's lecture 'What is the real religion of man'.) ~ Swami Bhumananda

Preface:

The main goal of a truth-seeking philosopher and scientist is to know oneself and find one's roots. Gradually, the mystery of life and the mystery of cosmic life began to unfold to him as he progressed on this path towards truth.

In addition to self-questioning and self-inquiry, as a human being, his mind weeps over human suffering. He continues to search for why people suffer so much, why there are so many problems, what are the root causes and in what ways people can be freed from their sufferings and problems. One by one, all the questions are answered, one mystery after another unfolds in front of his deep insights. He then unveiled the knowledge-experience, perceptions and decisions of his extremely difficult long journey, so that man could easily reach the main goal of human life with ease.

Pre-statement by a follower of Maharshi MahaManas

Most of the precious words of the great sage~ Maharshi MahaManas compiled here have been collected from the greatest doctrine of this time 'MahaVad' (Mahaism).

The essence of 'MahaVad' (Mahaism):

Sumeru Ray alias Maharshi MahaManas who has been working tirelessly almost all his life for the real human development.

Here is the essence of Maharshi MahaManas's logic and science based modern doctrine called 'MahaVad':

"The root cause of most man-made problems, suffering and misery is lack of sufficient knowledge and consciousness and mental illness. Blind faith, blind devotion, superstition and violence-hatred-terrorism have all arisen from that."

"Real human development and peace can only be achieved if proper mind development education and training are introduced all over the world. And if real human development takes place, then most of the human-centered problems will be solved."

The education system of proper mind development called 'MahaManan' is also a part of 'MahaVad'.

This religion called 'MahaDharma' has been formed on the basis of this greatest doctrine - 'MahaVad' and the curriculum of mind development - 'MahaManan'.

Chapter 1

What is 'Dharma' or Dharmic system (In general it is called religion) and why?

Just as the 'Dharma' (natural quality) of water, the 'Dharma' (natural quality) of fire, so the 'Dharma' (natural quality) in the case of living beings is its simple behavior or nature. There are some differences in human beings. Man acquires ManavDharma at some point in his nature — through simple behavior, through the gradual acquisition of knowledge-experience and consciousness — by advancing on the path of mental development. Become a full-fledged minded person. We have to move forward along the path of development of human mind - basic human religion.

'Dharma' means blind faith - not chasing after imaginary things or gaining something. 'Dharma' does not mean blindly obeying, behaving, worshiping an imaginary God, or obeying someone's malicious instructions. If such a system called 'Dharma' is imposed on people, or imposed on someone, then it is not 'Dharma', but 'Adharma'.

In this context, I have to talk about the imposed 'Dharma' (religion). In this case, the (imposed) 'Dharma' is the one that or the system by which a person is able to gain full humanity by developing the human mind and consciousness easily and quickly.

In the case of living beings other than human beings, they do not have to adopt or hold any Dharma (religion). It is naturally effective in them. So, why is there talk of adopting and observing a new Dharma or religion in the case of human beings ?! This is due to the fact that in the case of man, 'ManavDharma' (basic human religion) is his simple and natural Dharma/ religion, but as a result of intentionally imposing or forcing other or other artificial religion on him, he has deviated from his normal functions simple and natural Dharma/ religion and has gone astray. Now, in order to re-establish him in his own Dharma (religion) — basic human religion, a new Dharma/ religion based on basic human religion is absolutely necessary. This new religion is the MahaDharma (great religion).

If you really want to do something for people, then first of all make them free from blind-faith and Participate in this great initiative to make well-developed people.

The Great Religion~ 'MahaDharma' has emerged to bring people back to their self-development-oriented basic religion ~ ManavDharma. The 'MahaManan' curriculum has started to bring about real human development through proper Mind-development education.

मानवधर्म ही महाधर्म

Chapter 2

MahaVad (Mahaism)
A logical and science-based revolutionary doctrine aimed at human development and peace.

Unveiling The Truths of Human Life and Cosmic Life!

The mysteries and problems of human life and their root causes and solutions have been revealed through the wisdom words of the greatest sage of this time.

by Maharshi MahaManas

Summary of 'MahaVad':

Blind faith or superstition is one of the main causes of most of the problems in the human world. At the root of most complex humanized problems are ignorance, blindness, and physical and mental illness. Lack of adequate consciousness and lack of knowledge or ignorance are the main causes of most human suffering and problems.

'ManavDharma' (based on MahaVad): the basic and essential Human religion does not only mean becoming honest and kind and compassionate, 'ManavDharma' is the innate religion of man, the fundamental religion. Religion of spontaneous mind-development. We have forgotten that basic human religion and are obsessed with various imposed religions and iniquities.

It is very difficult to express the words 'Dharma' and 'Manav Dharma' correctly in English. Yet I have tried my best. Although 'Dharma" and religion are not one thing, in the conventional sense 'Dharma' is called religion.

Actually 'ManavDharma' is the natural quality of human which leads him/her towards the goal of becoming a fully developed human being through the gradual acquisition of knowledge and consciousness.

Just as the 'Dharma' (quality) of water, the 'Dharma' of fire, so in the case of man, 'Dharma' is the religion or quality of his simple behavior or disposition. Man, through his nature, simple behavior, spontaneously acquires knowledge, experience and consciousness, progresses along the path of development of the mind and at one time attains maturation or full human being. Became a man of full developed mind. 'ManavDharma' or Human religion is the way forward for the development of human mind.

In the case of imposed 'Dharma' (religion), by holding or adopting which system people can live well and develop quickly , that is 'Dharma' (religion). It is not a 'Dharma' (religion) to pursue miracles or false temptations, it is 'Adharma' unrighteous act.

You are human because you have a 'Conscious Mind'. But your (conscious) mind is not yet developed enough. You have to develop this mind to become a well-developed human being. And this is your primary religious work.

The development of the country and the entire human race is possible only through the development of the individual mind. The development of the country and the human race will be possible only if the right mind- development education system can be introduced for the purpose of real mental development of the people universally.

The root causes of poverty are ignorance, blindness, and blind-faith which are due to lack of knowledge and consciousness with physical and mental illness.

People have so many problems, sorrows and misery due to lack of sufficient consciousness. And the biggest obstacles to the development of this consciousness are religion, monarchy (now politics), and the business system. They never wanted the development of human consciousness in their own interest. Rather, they are always trying to make people ignorant and blind fools.

You have born as a human being, so the first and foremost goal of your life is to become a full-fledged human being. Your main 'Dharma' (religion) is to know yourself and this worldly system and always moving forward consciously to become a real developed human being. It is not your 'Dharma' (religion) to run after an imaginary god for the sake of gaining grace or something else.

We came here for a short time on an educational trip. Gaining high to higher consciousness is the underlying purpose of human life. Here we will benefit as much as we can become richer in consciousness through the experience of knowledge.

With the creation of the universe, the two entities~ 'Destiny' and 'Time' were born at the same time, and both are in harmony with the flow or stream of worldly events. The existence of 'Space' was also born with them. Their role in our lives is very important. So you need to have a clear idea about them.

'Destiny' is a self-created future-determining involuntary automatic worldly order. It came into existence at the beginning of the creation of the universe through the Big Bang. The moment of the explosion determines when, where and what will happen through the successive stream of events.

'Time' is a special existence as a measure of the distance or space or length between successive (change indicating) actions or events. Time is born from motion or action. Where there is no action or motion, there is no 'Time'. The existence of time is almost uniformly integrated with motion or action. So time is a dynamic existence.

The existence of the entire universe is our Creator or God. There is a mind in this world from God, that is the cosmic mind or God's mind. We say 'Cosmic Mind' or 'Viswatma'. There is nothing in this universe other than God. We are all part of God. Only when we know ourselves properly can we know God in its own reality.

Losing oneself and rediscovering is the essence of creationism.

Whatever we do, everything is done or forced to do by worldly system or destiny. So we are not responsible for our actions and the consequences. God is also largely under the control of destiny. It can be said that destiny is stronger than God.

Most of the activities that take place between the body and mind of God are just like the involuntary activities or events that happen automatically inside our body and mind. Although we as well as all living beings are created by God, our existence is actually a contribution of destiny.

We are all on the same path, on the path of evolving consciousness. Moving forward from the vague consciousness-level to the goal of full consciousness is the ultimate goal of human life and cosmic life.

Chapter 3

What spirituality actually is

The word 'spiritual' means self or mind. 'Soul' and 'mind' are synonymous. Whether it is the earthly body dependent or the supernatural body dependent mind, the human mind or the higher conscious mind, or the cosmic mind, whatever it is, the conscious being which is able to feel and think is mind.

Many people consider the conventional religion as 'spirituality'. But that is not true spirituality. True spirituality is to move forward for the purpose of gaining self-knowledge, self-realization being free from blind faith and blind following.

We are basically spiritual beings. We are like (virtual) children born of the cosmic mind or a God-mind. We originate from the mind and we are basically a mind beings. All our (mental) activities are spiritual. There is spirituality behind all our activities. In fact, our mentality and spirituality are almost synonymous. But from a practical point of view, the word spirituality is much more meaningful than mentality or mental activity. Spirituality is mainly related to introspection, self-exploration, self-realization, self-development, etc.

Whatever we do, whatever we think, the basic question~ the original purpose behind everything is working knowingly or unknowingly.

Saying 'I want it' - 'I want that', we are running after so many things. But we are not satisfied with anything. In fact, the underlying search will continue until we find that priceless gem of 'self-knowledge'.

Introspection Self-exploration is the first word of spirituality. Who am I - why am I, where did I come from, and where is my destination, where is the beginning of the creation of this universe and what is its ultimate goal. The spiritual world with all these. True spirituality is no longer a matter of conventional or so-called spirituality. 'Who am I?' This is the first step in entering the real spiritual world. And its ultimate goal is - 'unity'. As we proceed along the path of evolution of consciousness, naturally the incorporeal soul, the entity or soul of the higher level of consciousness, the deva-conscious soul, the cosmic mind or God soul

will gradually meet in this way. One by one the higher levels of consciousness will continue to evolve.

Although the mind or soul is the main center of the spiritual world, the entity or part of the mind that feels 'I', the 'I' or 'ego' shaped part is the main doer of spirituality. The part of the self-conscious, that is, conscious part of the 'I', that thinks, feels, and expresses desire.

One's own self~ The desire to acquire knowledge about one's true form or existence is spirituality. True spirituality is the gradual transition from the individual 'I' to the great 'I', then to the enlightenment through the acquisition of pure knowledge about the original 'I'.

Remember, at present our active mind (conscious and subconscious mind) is not the whole mind. The whole mind is a lot like a developing lotus flower. There are many parts and many stages of mind development. This mind-lotus with many mind-levels develops one after the other, step by step (mind) through different stages or stages of development.

From the obscure/ unclear conscious-level-mind gradually the insect-conscious-mind, then the reptile-conscious-mind develops gradually. The next developmental stage of the developing petals of the mind-form lotus is the animal-conscious-mind-level. The pre-human-conscious-mind then develops, and in the next stage the present human-conscious or conscious mind develops. Gradually the levels of superconscious or superhuman-conscious mind, deva-conscious mind, super deva-conscious mind, etc., develop one after the other. For the convenience of understanding, the above-mentioned few names mention different levels of mind, but there are also many subtle levels of mind. See the book 'MahaVad' for more details.

The last stage is the God-conscious mind ~ the cosmic mind. Although there is one more stage in the end. When all the petals of the mind-lotus have fallen off, the only part remaining with the seed (for re-creation) is original- conscious-mind (Adi-Chetan-mana) in Sanskrit it is called Brahma) or Paramatma.

One who is consciously aware of his/her mind~ his/her inner world, including the outer world, and at the same time conscious of the cosmic mind, is a sufficiently spiritually conscious person.

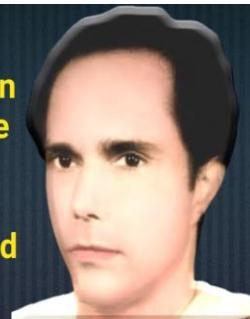

True spirituality does not depend on faith. True spirituality does not run after miracles. Many people think that worship, adoration, prayer and all religious activities are spirituality. Many believe that spirituality is the pursuit of supernatural powers. But that is not true spirituality.

The human-consciousness or conscious mind has no transcendental powers, there is logic-judgment-analysis science-mindset. Although the subconscious mind has some special powers, it is not a supernatural power. Possessing supernatural powers is the next highest level of consciousness of the human-conscious mind. Which, after the sufficient development of the human consciousness mind, gradually began to develop one by one.

If there is a slight development or vibration of the next higher conscious mind in someone, then it must be understood that it is an exceptional event. That is, the mind that is capable of developing in the future is sending a signal of its existence. Now, the previous work has to be done first. Without developing the human mind, it is not possible to develop the next higher conscious mind.

In fact, actual spirituality differs greatly from conventional or so-called spirituality. And to go the way of conventional spirituality is actually to go the wrong way. For this reason, there is a need for a fundamental religion based on true spirituality and human development. Today, there is an urgent need for a religion that will help human beings to develop the consciousness of the human mind directly, without confining it to the child-conscious level, without pursuing falsehood, and to show the way to the truth. In order to fulfill our eternal hopes and aspirations, the need of the time has led to the introduction of 'MahaDharma' basic human religion today.

Proper mind-development education can bring good change and peace in the world by developing people's knowledge and consciousness. And conventional religion can ignite the fire of unrest by making people ignorant, superstitious and inhuman.

Maharshi MahaManas

मानवधर्म ही महाधर्म • मानवधर्म ही सनातन धर्म

Chapter 4

Real human development and peace can only be achieved if proper mind-development education and training are introduced all over the world.

MahaManan

This is to introduce you to an excellent and incomparable system of education for true human development and peace!

We can see, if we look around carefully with a little watchful eye, the whole human race is going through a terrible crisis and severe illness. And as the days go by, the intensity of this misery and suffering is increasing.

To this day, no one has been able to stop the inhumane acts of injustice, corruption, oppression, rape, deception, violence, hatred, cruelty, destructive activities, etc. that are perpetrated by people all over the world. Religion, monarchy or politics, administration or any powerful system or organization has not yet been able to solve this difficult problem of mankind.

The root cause of most man-made problems is the lack of consciousness and knowledge. The blind-faith, blind devotion, superstition and mental illness all arises from that.

The only solution to this is to introduce the fundamental man-making education system in every school for the students to become rational in the right way and gain mental development.

At the same time, rational and mentally developed students have to be given special certificates according to their development standards. If these certificates are considered valuable in the workplace or in getting a job, people's interest in mind-development will increase. If students in school-college learn and practice to know and develop mind and be rational, gradually they will be able to become free from blind-devotion and blind-faith, superstition.

At the same time, proper education and treatment should be provided by identifying students who are prone to crime in a scientific manner or by investigating behavioral errors. Only then will good change come.

True mind-development is not possible without soundness of body and mind. For that, it has a medical section of alternative treatments.

By setting up mind-development centers for adults in different areas, explaining the benefits of mind-development education and practice to everyone, they need to be associated with this learning and practice center. for this purpose the 'MahaManan' mind-development curriculum has been developed. 'MahaManan' is an excellent - incomparable teaching method of mind-development education with essential basic education for real human development and peace.

Need your help to make a great human development initiative a success.

MahaManan' : The excellent --incomparable system of essential basic and true mind- development education for true human development and peace. True Education is the only solution. 'MahaManan' is true education which helps us directly to be fully developed human beings. True education makes us enough conscious and wise gradually. Also it makes us able to solve our most problems. Therefore we need true education for human development.

I would like to introduce you with an exceptional initiative of human development and peace, which will be implemented through an excellent –incomparable system of essential education for true and overall mind-development –world-wide.

'MahaManan' is an excellent – essential and fundamental education for true mind-development (ManoVikash SikshaKram) and human development. 'MahaManan Kendra' is the man making education centre of that system of education.

Now that's what we want to do, we want to build an international standard mind development center, that is 'MahaManan Kendra'.

We think, development of humankind or a nation is possible only through the development of individuals, also we think, customary or formal academic (school – college etc.) education is not sufficient for true development of human beings. For that, we need such an uncanny (non-formal) basic human development education which can help us to be fully developed human beings.

It is known to every conscious person, the cause of most problems – disturbances and crimes of human society –is lack of knowledge and consciousness and mental illness. And it happens because of the lack of self- (Mind)development education. Therefore the need of this education is undeniable.

The development of the country and the entire human race is possible only through the development of the individual unit. And for that purpose 'MahaManan' activities have started.

'MahaManan' mind-development education is the scientific way to alleviate global poverty. Lack of sufficient knowledge and consciousness is the root cause of poverty.

By giving all kinds of facilities, and necessary help, to a poor man with a little knowledge and a little consciousness, may be his/ her temporary poverty relief, but for a long time he will not be able to escape poverty.

If a rich man who has a lot of wealth, either hereditarily or otherwise, has a shortage of knowledge and consciousness, soon he could lose all his wealth and become poor, unless he accepts the advice of a wise person. However, it is important to have some knowledge in order to perform the tasks of the wise person.

One needs to have sufficient knowledge and consciousness to constantly make money and resources and protect them.

It is not that when economic development or economic freedom is achieved, human development also will be happen.

As economic development progresses, human life can be temporarily comfortable, human wealth and human civilization can be improved, in conventional education, people can become highly educated, but it will not develop the human mind. And if the conscious mind does not develop enough, people will lose all their wealth and fall into poverty again.

Human development means we understand the development of the human mind. Development of consciousness or conscious mind.

If the human mind does not develop, no matter how glamorous one looks, human beings will remain in the darkness in which they was.

Religious obstacles in the way of the spontaneous development of the human mind, the blindness, blind faith, and superstition that comes from ignorance, by removing these, if we can educate people in true mind-developmental basic education, if we can train them in mind-developmental practical procedure, then only human development will continue to develop.

If human (mind) development does not happen, all other development will be like pearl-garland in the monkey's neck. And if human development happens, then other areas will continue to develop.

The only way to alleviate poverty is to launch the 'MahaManan" mind-development curriculum extensively in all the countries which is performed by

me. And at the same time, poverty can be eradicated if we can establish 'ManavDharma' (मानवधर्म) in all.

This system of education removes ignorance, superstition and blind-faith from the human beings, and makes people aware and conscious as well as educates them in the essential basic education of life.

The root cause of poverty is blindness, superstition and blind-faith resulting from poor knowledge and low consciousness with physical and mental illness.

Not only free from poverty, human rights will be effective only when most people have enough knowledge and consciousness. In addition, the scarcity of knowledge and consciousness are responsible for most human-caused problems, sickness and most awkward incidents.

The conventional religion, politics, economics, administration, conventional education system, and any of the existing systems are not able to solve this problem.

In this context, I would like to say that communism is not a solution to this problem. Many people say that if communism is established in human society, it will be solved. But that is not the real truth.

Communism can only succeed if the knowledge and consciousness of the whole human race ever attains equality. Imposed communism is just an artificial system.

Communism is an artificial system imposed on human beings. Drowning people in the darkness of ignorance, Any artificial religious or political or social system imposed on them can never succeed. Can't be good for people.

So, not illusory communism, it needs 'MahaDharma' based on 'ManavDharma' (humanism), and it's great doctrine of the modern times: 'MahaVad'. Which helps people to be sufficiently developed human beings. Only developed people can build the greatest social order. There is no need to impose any artificial system on it.

To get rid of this extreme crisis, Human-development-based religion~ 'MahaDharma' is the only way. This religion is not the same as conventional religion. This is a scientific method of true

human development through an excellent and incompatible mind-development education.

Our slogan is ~ 'ମହାମନାନ ମହାଧର୍ମ' 'ମହାମନାନ ମହାମନାନ'

We want to enjoy our life much more nicely–, want to be successful in life – want to gain happy, prosperous – peaceful, joyful, beautiful, healthy life. We want to transform our hopes –ambitions into reality. Want to see ourselves as fully developed human beings, along with our development –we want to make our children fully grown human beings, want to develop them properly. Want to bring up as complete human beings in knowledge, good qualities, behavior, true education, capabilities.

If your demand is the same, if you want to enjoy a happy –developed, healthy, beautiful life, you can gain that through 'MahaManan' education syllabus– the Maha (great) mind-developmental educational program. Even with your education, side by side, the regular learning and practice of 'MahaManan' ('Maha-Mano-Vikas-Shikshakram') with 'MahaManan-Yoga' procedure, the overall development and along with it, the examination's result also performed very well.

To make this epoch-making system reality, if many people come spontaneously, only then will real human development be possible with poverty alleviated.

An appeal to conscious people:

To make a better world –to make our life blessed –to fulfill oneself, to remove the inhuman activities and poverty from our society, we have an excellent – incomparable system of essential education for true & development.

The creator of this system of education is Maharshi MahaManas. We are desirous to establish the way of overall development of human beings –world-wide, and also we are desirous to establish a true Human Development education center of international standard.

We need like-minded persons for our true Human Development program. If you are interested in this program, please extend your helping hands to make it possible.

To know more, please search: **MahaManan, MahaDharma**

'MahaManan' : Just it needs to be established; –the people are ready to receive it.

'The call to be proper Human being' is not any new saying. But in reality, there is no any education center, any path or method, before us. Now that path has been shown by **Maharshi MahaManas** –the great sage of the modern times (search–**MahaManas, MahaManan, MahaDharma**). That great path of true and overall self-development and universal mind-development is '**MahaManan**' or '**Maha Atma-Vikas-Path**'.

This excellent education (theoretical and practical) of human development is so beautiful that if any school/college-student receive it, even a short course of this education, the examination result of that student will be better. Along with that, improvement of behavior of that student will take place.

By receiving full course of '**MahaManan**' education, development of one's own self or mind comes into reality. In case of aged persons, being free from many psychosomatic and mental problems, they will be able to advance towards the path of true self-development, along with self-purification and self-realization.

Besides that, those who are tending to crime can come into normal state and able to turn into developed soul by through this education with a special course of '**MahaManan**'.

To grow a peaceful– developed society/country, '**MahaManan**' is the excellent – incomparable –essential education for all.

Make your life brighten and more bloomed, also bring in your life an unprecedented amazing lucky change, through the path shown by great sage **Maharshi MahaManas**.

'MahaManan' ('**Maha Atma-Vikas-Yoga**') educational program is not only a system of education of theoretical knowledge of self-development or mind-development. It is formed by combination of different sciences, or spiritual science, –modern psychology, spiritual psychology and many more methods invented by **MahaManas**, with practical or applied teachings of reasonable spirituality, with '**MahaManas-Yoga**' and newly invented '**MahaPathy**' complete treatment method of **Maharshi MahaManas**, and also different alternative systems of medicine.

'MahaManan' that is '**Maha Atma-Vikas'** education is a simple and easily comprehensible –effective –impeccable syllabus of true & overall mind-development or self-development with basic essential education to higher education of true (reasonable) spiritual knowledge.

True & overall self-development with real mind development isn't possible without universal soundness. For that, the 'Mental Treatment' is an important part of the 'MahaManan' education.

One who is (proud of being human) a combination of body and mind, if that one is ignorant of that body and mind, that one cannot be called a real human. That one is less or incomplete human. The basic education of 'MahaManan' helps one to become a well-developed human being in all respects.

By following and practicing which teachings (with practical~ applied methods) one can be developed in all respects, is 'MahaManan'

Chapter 5

MahaDharma

An epoch-making revolutionary 'Dharma' or Religion for real Human Development and Peace.

'MahaDharma' is a new religion that is about to usher in an era, and whose main goal is real human development and peace through mind development education.

'Dharmas' (Which is usually called Religion) is the natural or normal quality, function, behavior of something. In the case of human beings, religion is the pursuit of self-development through gradual acquisition of knowledge and experience through action and enjoyment. It is the natural quality and disposition of man to move forward with the goal of becoming a man of sufficiently developed mind. This is 'Manav Dharna' (human religion). In short, In the case of human beings, 'Dharma' is the basic innate activities, behaviors, natural qualities and dispositions of mind-development.

The goal of human life is to become a fully developed human being. Nothing else. Although 'Dharma' is called Religion, but 'Dharma' and Religion are not the same thing.

The question may come, Then why the re-emergence of this 'ManavDharma' ~human religion? Today we have forgotten our normal basic 'Dharma' (religion) and deviated from our normal path of development as various artificial and imposed religions have suppressed this natural religion for ages. Due to which people are in this misery today. The main goal of this religion is to get rid of superstition~ blind-faith and re-establish our basic religion and practice the teaching method of human development.

'Manav Dharma' is 'MahaDharma'. The abstract 'Manav Dharma' has been shaped as 'Maha Dharma'.

The basic human nature of gradual self-development or mind development, that is evolving of consciousness or conscious mind~ is 'Manav Dharma'. That is the basic religion of humanity. The practical aspect of 'MahaDharma' is "MahaManan" mind development training and education.

A new religion for human development. By eliminating the darkness of ignorance, to illuminate the world in light of awareness, the advent of 'MahaDharma' –the basic religion of human beings has been manifested. After a long time this religion has debuted according to the needs of the time.

A new religion has emerged in Bengal~ India. The name of this religion is 'MahaDharma'. This religion is not based on blind-faith, superstition and godliness like traditional religions. This religion is based on reasoning,

reasonable spirituality. Original spiritual science and humanism. And the aim of this religion is true human development and peace, through mind development curriculum.

**The scripture of this religion is now available in Bengali
(<https://mahadharma.wixsite.com/book>).**

Through the internet and social media this new revolutionary movement spread around the world. Many free thinking rational people, who are wanting to develop themselves have become devotee of this religion. The founder of this religion—Maharshi MahaManas~ the great sage of the modern times..

‘MahaDharma’- is the eternal truth which has revealed newly from the abyss of oblivion, or which was hiding for our ignorance so long. We— self-oblivious men, forgetting our basic aim of life, are living in an ecstatic state. By practicing which Yoga~ Maha Atma-Vikas-Yoga’ that is self or mind development Yoga~ with great devotion, one can become a fully developed human being, is ‘MahaDharma’.

For ‘MahaDharma’, just you have to remain conscious –wakeful about yourself, your duties, obligations of humanity –Karma, your activities, about your body and mind. Above all, you have to remain wakeful regarding your basic aim of life.

To know about yourself and the great world~ Who~ What~ Why~ When... and to keep yourself free from diseases, pollutions and negative influences, you have to learn and practice ‘Maha-Atma-Vikash-Yoga’ education, briefly— ‘MahaManan’ ~practical aspect of Maha Dharma.

The essence of this religion:

You have been born as a Human being; your basic aim of life is to be a fully developed Human being. Try to keep yourself always wakeful~ conscious. Try to know yourself and this worldly system, and advance consciously towards the aim of life. Be effortful to make yourself true and universal developed Human being.

We in spite of Human beings do not aware of our basic ‘Manav Dharma’ do not practice our ‘Manav Dharma’. For that, ‘Maha Dharma’ has been appeared as an independent ‘Dharma’ and Religion.

This religion is not a so-called religion, created by any imaginary angel or God, This religion is for the welfare of human beings created by a great man~ Maharshi MahaManas~ the great sage of the modern times.

If you are eager to know about 'MahaDharma' and 'MahaManan' please do Google search. Thank you.

The day when immature human beings abandon childish games in the name of religion and move forward towards the main goal of human life, become fully developed minded people, real peace will come in the world with good change.

~Maharahi MahaManas

Chapter 6

Real purpose of life

For real human development and peace we want a religion that will free us from blind-faith

If we are aware of the real purpose of life from the very beginning, and it is embedded in the mind, then life becomes beautiful rhythmic and dynamic without being aimless or misguided.

There are two goals in life. One is the apparent goal of sustaining life and making life healthy, prosperous and enjoyable, and the other is the main goal of life is self-development or mind development. That is to become a fully developed human being.

The system of education and practice that is needed to move life smoothly towards these two goals and to help life reach its original goal is called 'Dharma' or imposed "Dharma". This is usually called religion. But religion and 'Dharma' are not the same thing at all.

But in reality, the system that is in vogue in the name of 'Dharma' is seen to be the complete opposite of quality. It is the work of this conventional 'Dharma' (religion) to make our lives misguided and degraded and to chase after lies. So abandoning this anti-life 'Dharma' (religion), as soon as possible we must return to our basic 'Dharma' (religion) of human developmental 'ManavDharma'.

'ManavDharma' is the natural quality of human which leads him/her towards the goal of becoming a fully developed human being through the gradual acquisition of knowledge and consciousness.

And for that purpose it has been created, in the name of 'MahaDharma', a 'Dharma' (religion) based on human development, that is, a religion of human development. This 'MahaDharma' is the embodiment of 'ManavDharma' (basic human religion).

Most of the problems of mankind and its root causes and real solutions: The main reason for most of the human-centered problems, lack of peace and crises that are becoming more and more terrible is the lack of knowledge and consciousness and the illness of body and mind. And, the only solution is to introduce proper mind-development education everywhere and practice it regularly.

Only, through overall mind-development, real human development will be possible. And, only when real human development takes place will most of man's problems be solved. Peace will be established in the whole world.

The root cause of most of mankind's problems is a lack of sufficient knowledge and consciousness, and therefore false arrogance and superstition. Inability to think deeply and understand. At the same time there is reluctance to acquire real knowledge.

(Conventional) Religious teachings imposed for thousands of years are responsible for this misery of the people. Religious teachings have taught people to believe blindly, not to acquire true knowledge through the path of reasoning with an open mind.

The only solution to this problem is to introduce science-based mind-development education. And for that purpose, after a long period of research and effort, an excellent incomparable and essential curriculum for proper mind-development called 'MahaManan' has been prepared. In order to build a bright future for the children of the new and next generation, it is necessary to build a 'MahaManan' education center all around. On the other hand, the practical aspect of the human developmental religion called 'MahaDharma' is the teaching of 'MahaManan'.

The main reason for most of the human-centered unrest, problems and crises that are becoming more and more terrible is the lack of knowledge and consciousness and the illness of body and mind. And, the only solution is to practice the right mental development education everywhere.

The horrific Inhumane incidents that are happening all over the world every day, and the perverted, deranged, insane form of human beings that we are constantly witnessing helplessly, no conventional system like religion, politics, administration, etc. is capable of remedying it.

In this great crisis, to save us from the coming catastrophic consequences - Maharshi MahaManas' true human development logic and science based religion 'MahaDharma' has shown the only solution. There is still time, if we can still move forward on that path, then the last will be saved.

If we want to build a beautiful world free from injustice and crime, fraud, free from exploitation and oppression, we must first build manmaking education centers for people through schools, colleges and independent education centers. 'MahaManan' manmaking education center for human development is the teaching and training center for mind development. At the same time, we have to adopt and practice this basic religion called 'MahaDharma' in the interest of ourselves and the entire human race.

Real human development and peace can only be achieved if proper mind-developmental education and religion are introduced all over the world. And, only

when real human development takes place will most of human's problems be solved. Peace will be established in the whole world.

The root cause of most of mankind's problems is a lack of sufficient knowledge and consciousness, and therefore false arrogance and superstition. Inability to think deeply and understand. At the same time there is reluctance to acquire real knowledge.

Religious teachings imposed for thousands of years are responsible for this misery of the people. Conventional religious teachings have taught people to believe blindly, not to acquire true knowledge by reasoning with an open mind.

The only solution to this problem is to introduce reason and science based mind-development education. And for that purpose, it has been prepared as a result of long-term research and tireless efforts an incomparable essential curriculum and activity of proper mind-development called 'MahaManan' and 'MahaDharma'. To build a better future for the children of the new generation, build many MahaManan and MahaDharma centers all around.

Chapter 7

This is the only way mankind can truly be liberated

Today I would like to say that communism is not a solution to the fundamental problems of mankind. Many people say that if communism is established in human society, it will be solved. But that is not the real truth. Communism can only succeed if the knowledge and consciousness of the whole human race is sufficiently developed and there is almost equality in that higher knowledge and consciousness among most people. But it can never be implemented. It will never be possible to bring a balance of consciousness between them by elevating the whole human race to a higher consciousness.

In the name of 'Communism' the system imposed on mankind is in fact an artificial system. Even if communism is imposed on human beings, the fundamental problems of mankind (lack of sufficient knowledge and consciousness) will never be solved. On the contrary, by imposing this artificial system, people will have to suffer the consequences.

If I am asked, what is the biggest problem in the world right now? I would say, Religion which did not allow the development of the human mind. As a result, the human mind is still in that primitive darkness. Most of the problems are caused due to lack of sufficient knowledge and consciousness of the people.

If we want to bring about real human development, if we want to solve most of the problems of human beings, the correct education system of human mind development must be made effective everywhere.

Drowning people in the darkness of ignorance, Any artificial (religious or political or social) system imposed on human beings can never succeed. Can't be good for people. So, not illusory Communism, it needs 'MahaDharma' (the basic Dharma or Religion of human beings), and it's great doctrine of the modern times: 'MahaVad' (Mahaism) which helps people to be sufficiently developed human beings. Only developed people can build the greatest social order. There is no need to impose any artificial system on it.

The great doctrine of this time 'MahaVad' (Mahaism) is not inclined to impose any religious philosophy or any political belief on the people. Its main purpose is to make people aware enough. When a person becomes highly conscious, then he will be able to set the right policy and move forward on the right path."

One thing we need to keep in mind, human development is actually the development of the human mind. And it requires education and practice to develop the mind properly. And for that, the education system 'MahaManan' ~the mind development and self development training has been prepared. 'MahaManan' is an excellent and incomparable system of education for true human development and peace. Actually, 'MahaManan' is a practicing part of the mind-developing religion called 'MahaDharma'.

Not only religion but also political power will be needed to make this grand initiative a reality. Therefore, good change in human life will be achieved only if a strong political party based on 'MahaVad' and 'MahaDharma' is formed.

It is never possible to bring equality among the very mixed people of today. However, step by step, it will be possible to raise people to a higher consciousness through the educational system of 'MahaDharma' and 'MahaManan' for a few generations.

For thousands of years, religion, monarchy (now politics) and trade or corporate system have plunged people into the abyss of ignorance, from which it will be possible to slowly recover.

People have so many problems, sorrows and misery due to lack of sufficient consciousness. And the biggest obstacles to the development of consciousness are religion, monarchy (now politics), and the trade or business system. They never wanted the development of human consciousness in their own interest. Rather, they are always trying to make people ignorant and blind fools.

Democracy will succeed only when most of the people of the country have enough knowledge and consciousness. Otherwise, that country will become a paradise for evildoers in the name of democracy.

As long as the backward oppressed people continue to lick the feet of the people of religion, monarchy and the upper classes, their slave mentality and blindness due to ignorance cannot be stopped, and they will continue to be oppressed. The only way out of this predicament is to take initiation in MahaDharma (human religion) and start mind-development education and practice.

'MahaDharma' is not a religion based on faith like the conventional religion. This is the religion of becoming a sufficiently developed human being free from superstition. An Excellent incomparable Education System for Real Human Development.

Chapter 8

About Faith and Knowledge

Without enough reasoning and proof, without knowing enough with the help of the conscious mind, to accept something as true due to ignorance, blindness and delusion, to accept any deceptive or illusive seeing and hearing as true, or to have a fixed assumption about something imaginary is ‘belief’. In other words, ‘belief’ is a special mental activity of the subconscious mind to gain an idea like blind and ignorant about something.

Faith is the root-cause of most vital questions. Without faith – we cannot move forward even a single step, due to our lack of consciousness. So it is not faith to suppose anything for convenience of work.

Faith comes to birth from ignorance. Malice comes to birth from faith . Terrorism comes to birth from malice.

Faith is blind notion, –faith is illusive knowledge. Generally, to which we mention 'knowledge' –the greater part of that is superficial or seeming knowledge.

There are many astonishing things in this world, but it seems to me that there is no astonishing thing more than blind faith of human beings.

Faith is assurance and consolation of ignorant human beings, faith is their capital, –faith is their support and shelter.

The object of faith –sometimes may be truth, sometimes may be not, and also sometimes may be semi-truth or partly truth. But it doesn't depend on a believer.

This is an elusive world which is built on the base of faith. “Faith is not anything debatable, There where is faith –nothing to debate.”

You may ask me that all these sayings are also my faith! But not that, all these are seeming truth to me –to a knowledge-wayfarer.

We love truth superficially. Actually we do not want truth. We fear the truth. The fear is to be endangered of our existence, –which is standing on the base of untruth. We love to think our beliefs as truth.

Spirituality is not anything depending on faith, spirituality is the science of self-knowledge, –and spirituality is the main subject of practice –study and research of the knowledge-wayfarer.

We are travelers of the path of blooming consciousness. Staying in between 'beginning' and the 'end' of the path, acquiring knowledge of the whole path and the ultimate truth is impossible.

Even though, one is able to reach the end –isn't able to make us known about the whole and the ultimate truth.

First time, we go forward– towards any imaginary target, on the path of life, holding different beliefs. Gradually in this way– with increasing experience and knowledge, when we become more conscious, we advance following the way of science and rationality, –supposing all are seeming truth, giving up beliefs – largely, towards the aim of true self-development.

In this manner, after passing over much more distance, –with increasing more consciousness, gradually step by step– one time we come near the truth. Then holding the hand of some truths or partly truth, –we advance to the aim of absolute truth.

In fact, the entire route is the way of blooming consciousness. We– in our different conscious stages, with different need and mentality– advance aiming different subject-matters. In this manner, pushing human beings forward to the aim of fulfillment –is the motive of worldly system. In different stages of the consciousness, it appears in different times –atheism, religious craziness, rebelliousness, appears different perverted and destructive condition etc. –all these are different stages of this path.

Belief is not true knowledge, it is blind and firm notion. To which we say knowledge– is also seeming truth –truth on the surface. Except it, due to lack of perception –due to misunderstanding, many times to which we consider 'knowledge' –think, 'I know it', –in fact, that is not knowing –not true knowledge.

If one is desirous to get the absolute truth –in belief-(sub)conscious stage, that who has no conception about truth, what could be the result of his/her desire?

I do not claim that my doctrine –way –theory –views are only truth. Also I do not cherish suchlike notion that- ‘Nothing is truth’. Which is truth to me, may be not to others. Which is truth to others, may not be supposed to me

I cannot say, by no means– emphatically that it is truth or it is not truth. All are seeming truth to me.

We are so much ignorant that we do not know– just a little before what exactly happened and also we do not know, exactly what will happen just a little after. Though, we feel proud for our knowledge –we be inflated with vanity. We do such owing to ignorance.

We are proud because of our thinking ability. Of what sort that is–

It is a complicated activity of mind, to come to one or more conclusion or truth. This activity is formed– depending on different degree of consciousness and egotism of different individuality, –by some notion –faith, logic –deliberation with causation, blind logic and judgment, self-discussion, experience, direct and indirect knowledge, incorrect knowledge etc. and imagination . But in most cases, it makes clear our incapability. Still then, ignoring that, we try to be self-satisfied dissolving in fancies. One to another topic, then that topic to some other topic, – in this way the running of thinking is going on continuously, and by this way the creature who is charmed losing oneself in it –are we –human beings.

Knowledge is not any information or theory, knowledge is realized notion of reality of enough wakeful and conscious persons, on any information or theory or any fact or skill or subject-matter. Knowing facts and information, knowing ability –how to do something, with enough knowing ability, –is knowledge.

That realization also makes difference depending on realization ability of different individuality. Realization of all is not same. I cannot speak that all realization is pure knowledge. To be enlightened with pure knowledge, one needs to be enough wakeful –conscious, free from mental obsession, truth loving– free and clean minded. If any incompetent one (without realization) put faith in any pure knowledge, even then, it would not be pure knowledge to that one.

In this context I would like to say, some persons are accustomed to proclaim or predicate their suppositions with such firm blind faith that whichever they are sayings, will happen inevitably. But it would be observed that their predication or predictions will haven't been realized even ten percent!

I have seen some doctors those who have predicated proudly after bringing round a few (one or two) patients of serious diseases (like cancer etc.), that they are able to cure such and such diseases, or they have infallible medical treatment of such and such diseases.

Hearing like that predinating, many of us have put faith in those doctor's words. Moreover, some of us also have proclaimed exaggerating their words– to make their faith strong! Even such like proclamation has been heard, too, that those doctors are equal to God!

In the discussion of faith and knowledge, it is recollected to me the picture of that boy (suppose his name is 'A') who knew or believed on the base of his (polyandrous) mother's word that 'Mr. B' is his father. After coming of age, he came to know that 'Mr. B' is not his father, his father is someone else!

Still then, we believe –because we have no other way without believing–, believing is our basic instinct.

Chapter 9

That's What 'Dharma' (religion) is and what 'Manav-Dharma' is

In the context of the new religion MahaDharma: That's what 'Dharma' (religion) is and what 'Manav-Dharma' is.

Since religion and monarchy and current politics have come hand in hand since ancient times, it is necessary to shed some light on religion.

Since this new religion called 'MahaDharma' is based on 'Manav Dharma' (human religion or humanism) and has been introduced to re-establish 'ManavDharna' (human religion), it is necessary to shed some light on 'Dharma' (as religion) and 'ManavDharma' human religion.

That's what 'Dharma' (धर्म which is usually called religion) is and 'Manav-Dharma' (मानवधर्म the basic 'Dharma' or religion of human beings) is.

'Dharma' which is commonly called religion. But 'Dharma' and Religion is not same thing.

'Dharma' is one's natural qualities, activities and behavior. There are two types of 'Dharma'. One is the natural quality, activities and behavior of someone, and the other is the quality, activities and behavior imposed on someone.

Just as the 'Dhama' of water and the 'Dharma' of fire, so the 'Dharma' in the case of an organism is its simple behavior or natural quality or nature-dharma. There are some differences in the case of humans. Man acquires human-qualities human-dharma (Manav Dharma) at one time through his/her nature-dharma or natural activities — through simple conduct, through the gradual acquisition of knowledge--- experience and consciousness by advancing on the path of mental development. Become a full-fledged minded person or fully developed human being. To move forward along the path of development of human mind is --- human-dharma or human-religion that is 'Manav-Dharma'.

'Dharma' does not mean blindly pursuing something imaginary or gaining something.

'Dharma' does not mean blindly obeying, behaving, worshiping an imaginary God, or following someone's evil instructions. If such a system in the name of 'Dharma' is imposed on people, then it is not religion, it is irreligion.

In this context, I have to talk about the imposed "Dharma" (religion). In this case, the imposed 'Dharma' (religion) is that system by which a person is able to attain by developing the human mind and consciousness with ease and speedy recovery. That is the real imposed 'Dharna' of man or imposed human religion.

In the case of living beings other than human beings, they do not have to adopt any religion and hold it. That naturally works in them. So, in the case of human beings, why is there talk of accepting and observing a religion separately ?!

This is because, although in the case of man 'ManavDharma' or human religion is it's simple and natural religion, As a result of deliberately imposing other artificial religions of faith on it, human has deviated from its own self-developing simple and natural 'Dharma' (religion) and has gone astray.

Chapter 10

The Cosmic Mind exists in its own reality!

The entire universe including all organisms, is made up of programming codes like computer programming languages. And there is a programmer behind the creation of all living beings. The universe existence with a highest conscious cosmic mind itself is that Creator.

Behind everything there is a constantly evolving highest intelligent conscious mind. Many problems can be solved only by realizing it.

Mind is a very high quality software powered by programming code, much like computer software. There is also a developer or programmer behind this software. Nothing is created by chance.

There are many evidences of the existence of that highest intelligent mind scattered inside and outside of us, just need to have a sufficiently developed conscious mind to realize it. But that is not the God of conventional ideas or the God of religion.

Many are skeptical of the cosmic mind. For those who have not yet fully understood or known their own mind, it is really difficult to understand or know the existence of cosmic-mind, to realize its existence. The mind has to be understood with the mind. And it requires observant~ conscious~ truthful, sufficiently developed blind-faith-free-mind.

I think these very simple evidences would be very helpful in understanding the existence of the cosmic-mind:

Its intelligence is reflected in the strategies it has devised for the purpose of maintaining their existence and lineage through the reproduction of mortal organisms. And, intelligence is the sign of the presence of 'mind'. That is, where there is intellect, there must be mind.

Let's talk about that strategy: the strategy of arranging sexual pleasure in the organism and by tempting the organism towards sexual pleasure, by incorporating the programming code of sexual intercourse in the organism, to motivate or compel the organism to have sexual intercourse must be a sign of its intelligence.

Another manifestation of the Creator's intelligence is the creation of female and male creatures for the purpose of creating better living beings and their proper body-organs and affectionate mind towards child. Behind all this there is clearly the existence of intelligence or intelligent conscious mind.

In addition, so that we do not destroy our own bodies, we try to avoid diseases, injuries and attacks, the Creator has included in us such instructions in the form of programming codes of Pain Feeling or suffering.

Although not all of its functions are complete and flawless, for many of us it is not satisfactory enough. Yet at the time of creation (at a particular stage of evolution of consciousness) it has done a lot on the basis of its knowledge and consciousness. The Creator has also given us a lot of self-defense.

Ever since the birth of the universe, it has been moving from a very early state of consciousness towards full consciousness, following the path of evolution of consciousness. The development of knowledge, experience and consciousness is observed through the creation of new creatures, one after the other.

Although it cannot be called benevolent or absolute benefactor of living beings. The creature is nothing more than a toy or play dolls in its playroom. If it were for the welfare of all living beings, it would not make one living being the food of another living being.

If you search, you will find many more such evidence. And if we observe a little more closely, we will see that it has devised various strategies for the purpose of making us fully developed human beings, from a very low consciousness to a high and higher consciousness.

Also, a closer look reveals that the cosmic mind has been evolving little by little over a long period of time. The improvement in its creativity along with the development of the mind can be clearly seen by looking at the evolution (From worms to advanced humans) of its evolving organism.

The mind is behind the creation of everything. I think our Creator Cosmic Mind did not create this universe, it is the universe itself. There is also a Creator and the mystery of creation behind it. This has been described in detail in my cosmology or creation theory entitled 'Uncovering the Mystery of the Creation of the Universe'. In this science based philosophy we see that the cosmic-mind that is nature has created only plants and organisms on this earth.

Chapter 11

This is the only way mankind can truly be liberated.

Today I would like to say that communism is not a solution to the fundamental problems of mankind. Many people say that if communism is established in human society, it will be solved. But that is not the real truth. Communism can only succeed if the knowledge and consciousness of the whole human race is sufficiently developed and there is almost equality in that higher knowledge and consciousness among most people. But it can never be implemented. It will never be possible to bring a balance of consciousness between them by elevating the whole human race to a higher consciousness.

In the name of 'Communism' the system imposed on mankind is in fact an artificial system. Even if communism is imposed on human beings, the fundamental problems of mankind (lack of sufficient knowledge and consciousness) will never be solved. On the contrary, by imposing this artificial system, people will have to suffer the consequences.

In this context, I have to say something about the left. Most people think that communism is the only left. But the left does not mean that there must be communism. In fact, the left is moving against the current system, not accepting the various irregularities and irrational arrangements in the traditional system. It

is not necessary to have communism in the opposite direction. There may be a different opinion or doctrine.

If I am asked, what is the biggest problem in the world right now? I would say, Religion which did not allow the development of the human mind. As a result, the human mind is still in that primitive darkness. Most of the problems are caused due to lack of sufficient knowledge and consciousness of the people.

If we want to bring about real human development, if we want to solve most of the problems of human beings, the correct education system of human mind development must be made effective everywhere.

Drowning people in the darkness of ignorance, Any artificial (religious or political or social) system imposed on human beings can never succeed. Can't be good for people. So, not illusory Communism, it needs 'MahaDharma' (the basic Dharma or Religion of human beings), and it's great doctrine of the modern times: 'MahaVad' (Mahaism) which helps people to be sufficiently developed human beings. Only developed people can build the greatest social order. There is no need to impose any artificial system on it.

The great doctrine of this time 'MahaVad' (Mahaism) is not inclined to impose any religious philosophy or any political belief on the people. Its main purpose is to make people aware enough. When a person becomes highly conscious, then he will be able to set the right policy and move forward on the right path."

One thing we need to keep in mind, human development is actually the development of the human mind. And it requires education and practice to develop the mind properly. And for that, the education system 'MahaManan' ~the mind development and self development training has been prepared. 'MahaManan' is an excellent and incomparable system of education for true human development and peace. Actually, 'MahaManan' is a practicing part of the mind-developing religion called 'MahaDharma'.

Not only religion but also political power will be needed to make this grand initiative a reality. Therefore, good change in human life will be achieved only if a strong political party based on 'MahaVad' and 'MahaDharma' is formed.

It is never possible to bring equality among the very mixed people of today. However, step by step, it will be possible to raise people to a higher

consciousness through the educational system of 'MahaDharma' and 'MahaManan' for a few generations.

For thousands of years, religion, monarchy (now politics) and trade or corporate system have plunged people into the abyss of ignorance, from which it will be possible to slowly recover.

People have so many problems, sorrows and misery due to lack of sufficient consciousness. And the biggest obstacles to the development of consciousness are religion, monarchy (now politics), and the trade or business system. They never wanted the development of human consciousness in their own interest. Rather, they are always trying to make people ignorant and blind fools.

Democracy will succeed only when most of the people of the country have enough knowledge and consciousness. Otherwise, that country will become a paradise for evildoers in the name of democracy.

As long as the backward oppressed people continue to lick the feet of the people of religion, monarchy and the upper classes, their slave mentality and blindness due to ignorance cannot be stopped, and they will continue to be oppressed. The only way out of this predicament is to take initiation in 'MahaDharma' (human religion) and start mind-development education and practice.

'MahaDharma' is not a religion based on faith like the conventional religion. This is the religion of becoming a sufficiently developed human being free from superstition. An Excellent incomparable Education System for Real Human Development.

Wisdom Words

“

Many have become disgusted with their lives because they didn't get what they wanted, or they could not be what they wanted to be something special. But they are all indifferent about the main purpose of their life.

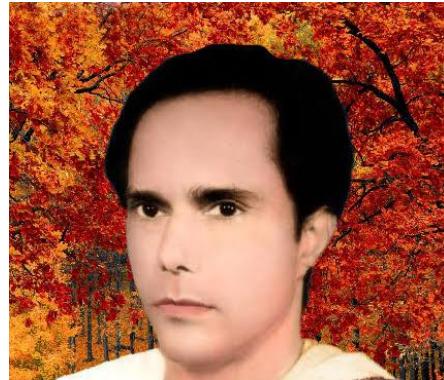

The purpose of this life: to become a sufficiently developed human being has not become fulfilled for any of them. In fact, the underlying frustration of that inadequacy continues to create terrible emptiness inside them.

Sadguru~ Maharshi MahaManas

Chapter 12

Chapter 13

Latest Cosmogony and Spiritual Psychology of Maharshi MahaManas with Reasonable Spirituality (very briefly)

The Original Being (Brahma/Paramatma) is not full of consciousness. Not full in all respects. There are a few wants in it. Fullness is a completely stalemate or static condition, fully inactive –‘Nergoona’ or quality-less state, –which is synonymous of unconsciousness. From which state nothing can be creatable. Fully stand-still condition!

Where there is nothing to want –nothing to get, therefore it has nothing to do (for a self-sufficient full-conscious existence). There is no question of creation!

It has a few want, and it does not know –who it is, –why it is, –where it came from, and what the end is. This is the main cause of creation.

Searching oneself after losing intentionally, –is the mystery of creation.

Once the great universe came into existence, and it will be destroyed one time. The universe –the great creation is the product of desire of The Original Being.

‘Saguna Brahma’ is a little copy of The Original Being (Brahma), which is manifested as great universe in a short time.

To seek again, after missing oneself intentionally’ (to search oneself after losing) –is the main theme (mystery) of the great creation.

The Original Being (Brahma/Paramatma) is not God. The great universe existence is God existence, and there is a cosmic-mind in the universe-body, –that is God-mind. God had come into existence like a just-born baby —baby universe, —almost ignorant —unconscious baby, with the destiny of going to ultimate goal–full blooming. The destiny is from about senseless to complete consciousness, through the activities and enjoyment, through the experience of knowledge –continuous walk–.

The aim of the great creation is largely similar to –‘trying to fulfill the unfulfilled desires through one’s progeny’.

There are many stages in God life, such as– childhood, adolescence, youth etc., – like our human life.

Not only God (great universe), but we all, are going to the ultimate goal of destiny, as a part of it. None is stopped here; it is not also possible to stop. There is no way but go forward, to the complete self-development (Poorna Atma-Vikas).

According to nature, situation and happenings, someone is at front –some at back. We all are travelers of the same path –the path of blooming consciousness.

From the view-point of ‘MahaVad’ –the great universe (cosmos) is the body of God, there is also a mind in this body that is God mind. This great universe and its mind unitedly –the God existence!

Universe is not created by God, itself God. In this universe, here is nothing except God (except the latent existence– The Original Being). Only some parts of universe, like creatures are made by God. Though, God had made these creatures by its own body-materials. Our minds are also made from universe-mind. Nothing is creatable from nothing. We all are parts of God/universe.

God is the great universe (cosmic) existence, which is created by The Original Being –(‘Brahma’ in Sanskrit). The Original Being is not God; it has no activities in this world. ‘Brahma’ is silent observer in this worldly game or sport.

The gradual steps of ‘Paramaham’ to ‘Aham’ –Supreme ‘I’ to individual ‘I’, as described in ‘MahaVad’ (very briefly) –:

- 1. The Original Being (Paramaham or Param Brahma) had created an almost similar mini image (copy) of it –from its own materials. →**
- 2. The second existence of the Original Being had been attained to a preconscious state –through self-hypnotism(Yoga Nidra). →**
- 3. After that, it becomes two seeds of anti Universe with the first explosion! →**
- 4. Universe (there are two anti-Universes) existence or God (another is Goddess) had been created with Big explosion– Big Bang! Like seed to tree. →**

5. God created Creatures.

God and we all are travelers of the same path –the path of blooming consciousness. We all are going forward from latent-conscious state to the goal of full consciousness. This is called life. As much we are going forward, so much we are becoming free from ignorance. In fact, gaining enough consciousness is the aim of life.

There are two types of realities in the whole. One is matter and the other is anti-matter. As opposite-reflections they exist only because of their separation.

We as beings live here in one universal reality, and in fact we also live in the other opposite universe, in an opposite form. This separation gives the reality its existence. And these two opposites are attracted to each-other.

However, when these two realities will unite, they'd both seize to be. One Universe is like the Male Principle, who is symbolically named 'X', the great attractive Lover. The opposite Universe is like Female, which we can call 'Y', she is X's Lover. Always they are attracted to each-other and try to unite. This dynamic of loving attraction is one of the Causes of Creation.

When they unite they lose their separate identities. The Goal has been achieved. That is the end of worlds. With the completion of the temporary dynamics there is Total Peace.

Find out for yourself how to come to realize these realities. It is certainly a great adventure to find yourself, your opposite and the Source. In the teachings of 'MahaVad' you can find the Way to yourself and Source.

'MahaVad' does not accept the theory of rebirth in this world (to know the reason, read 'MahaVad'). But it says, there is another life in another world (Paralok) beyond death.

'MahaVad' says, destiny is more powerful than God. Destiny is the produce of all pervaded successive stream of events of the worldly system, which had been predestined automatically at the very beginning of the Creation —the Big Bang!

With the beginning of the creation— it came into existence. From that time it is fixed, when —how and what have to be happen —a matter of course. Destiny is powerful than God. God is also under control of Destiny.

At the very beginning of spinning of a notched wheel, it becomes automatically fixed that when it will be stopped and then which notch will remain in which direction, —this is Destiny. It is almost same to the creation. Just at the beginning of the creation, its luck had been fixed automatically.

There is no individual one who regulates or controls the universal system. Destiny came into existence by the first explosion of the beginning of the great creation.

About incarnation, MahaManas said in ‘MahaVad’ – “No one is born as incarnation of God. She/he is made as incarnation of God, as I have been made by my devotees.” Also he said, “All creatures with human beings are created by God, but religion is created by human being.” “Because of lack of right knowledge about God –about the great creation —about oneself, many persons think that their religion is made by God directly. MahaManas also said, about true spirituality and true religion in ‘MahaVad’.

Besides spiritual science, there is another part of spiritual psychology in ‘MahaVad’. ‘MahaVad’ says (briefly), ‘Mind is like a blooming lotus. There are many stages and many parts of blooming conscious mind. Pre-conscious to insect conscious, after that – reptile conscious mind blooms gradually. The next stage of blooming petals of the lotus like mind is animal conscious mind. After that, previous (aboriginal) human conscious mind, and after that, human conscious mind, and next super conscious mind blooms gradually.

The last blooming stage of the mind is God conscious mind or God mind.

Also there is more one stage, then when all petals will fall down, the remaining part with seeds [for re- (again) creation] is The Original Being conscious mind!

Those who are conscious about his/her own mind, with inner world, also conscious about outer world, and conscious about the great universe-mind, they are in fact conscious human being.

Above all, the great distinction of it is— ‘MahaVad’ does not say the final word. ‘MahaVad’ says, no viewing— experience, philosophy or doctrine can be universal

truth –eternal truth. Staying in the middle of the path of blooming consciousness, acquirement of full knowledge is impossible.

Universe is not created by God, itself God. In this universe, here is nothing except God (except The Original Being). Only some parts of universe, like creatures are made by God. Though, God had made these creatures by its own body-materials. Our minds are also made from universe-mind. Nothing is creatable from nothing. We all are parts of God/universe

God is a temporary existence, which is created by The Original Being – ('Brahma/Paramatma'). The Original Being is not God; it has no activities in this world. 'Brahma/Paramatma' is silent observer in this worldly game or sport. By the by, Dev/Deva/Devata is not God, it is a higher conscious stage of human beings -----

* One thing we have to keep in our mind, here is nothing except Paramatma (The Original Being)

Chapter 14

In order to better understand this religion based on logic and science, one has to know about the Scientific articles that are included in 'MahaVad', the greatest doctrine of this age. So in this book some of his articles are given. These scientific articles have been published in various international science journals.

What exactly Destiny is

'Destiny' is a self-created automatic kinetic energy and force and also a cosmic system that came into existence as soon as the creation of the universe began with the Big Bang. This abstract being is the originator of all cosmic events and activities. At the moment of the explosion, it is automatically determined when, where and what will happen one after the other successively. That is Destiny.

Destiny is nothing but the spontaneous natural creator of inevitable future events through action-reaction-interaction, causation, etc.

Whatever is happening here, Destiny is at the root of everything, Destiny is responsible for everything. This Destiny is predetermined and unchangeable self-created cosmic system.

However, in order for Destiny to be effective, it has to proceed on the path of logic, subject to various factors, subject to environmental conditions, causes, action-reaction interaction, etc. Some of us are happy and some are sad, some are successful and some are unsuccessful because of Destiny. Destiny is responsible for all our troubles problems and misery. Therefore, it is necessary to know the Destiny very well

Destiny! That is, everything that happens around the world is predetermined. So far, everyone has known this Destiny as a matter of religion and spirituality under different names (luck, fate, fortune, etc.)! But it's actually a matter of science.

An event requires stored energy and the force generated from that energy, space or place, object(s) or substance(s) and their conditions.

The applied force creates event(s) depending on the place or space, object(s) or substance(s) and their conditions. Again, there is an energy and force created through this event, which becomes the cause and pre-determiner of the future events arising from this event. In the case of future events, this energy and force is their destiny. In addition, a pre-determined event is also called destiny.

Religious Destiny and the Destiny in science are not one thing. In the case of religious Destiny, there is a determinant or controller of Destiny. There is a conscious entity behind destiny. The fate or Destiny of one is determined

according to the controller's will. Besides, in some religions there is Karma or Karma-Phal of pre-birth behind fortune or Destiny.

Here we will look at Destiny through the eyes of science and try to know it in its own reality.

A CAREFUL EXPLORATION FROM A SCIENTIFIC POINT OF VIEW TO SEE IF THERE IS ANYTHING CALLED 'DESTINY' AT ALL.

We become interested in Destiny, when we see that despite seemingly everything being done properly, the work has not been successful for some invisible reason.

Some people have failed in life despite having enough qualifications and some people have made great progress in life despite not having any such qualifications.

Seeing all this, we have a mixed feeling of curiosity and wonder about Destiny. Even the desire to know the truth about Destiny grows in some people.

What is destiny? Is there a controlling entity behind this? Does anyone's destiny go as planned? Is there logic and sufficient reason behind it? Sometimes such questions arise in our minds.

In fact, everything is going according to the rules or system of the world. Many things remain invisible to us due to our lack of knowledge, experience and consciousness. So we don't understand many things properly.

Now let's come to the main point. From the point of view of science, Destiny is a completely self-created and automated physical system. Nothing happens here under anyone's direction like the god of fortune.

In short, Destiny is the kinetic energy generated from the Big Bang, the cause and the originator and pre-determinant power of everything that will happen in the future.

Destiny is actually a kind of spontaneous arrangement created through an event, which is the originator and predeterminer of inevitable successive sequence of

events through action-reaction and interaction based on space- time, condition and causation.

Here, I mean the sequence of events that one or more events occur from one event and from those events innumerable events (somewhat compounded rate like the cell division) arise.

In the cosmic field, destiny is a self-created automatic worldly system as a predeterminer of consecutive future events which came into existence with the creation of the universe through the great explosion (Big Bang).

One thing needs to be said here, it is only possible to change this cosmic Destiny if any force is applied from outside the universe. It is not possible to change this cosmic Destiny from within the universe.

In this context, Voluntary energy can be born from this involuntary energy. Again there may be an voluntary force or event behind an involuntary force or event.

In this system, it is automatically determined at the moment of the explosion—when and where— what would happen in the consecutive events. Its name is Destiny. Whatever is happening here, Destiny is at the root of everything, Destiny is responsible for everything. This Destiny is predetermined and unchanging. However, Destiny has to move forward along the path of logic, cause and based on a variety of factors, in order to be effective.

Some of us are happy, some are sad, some are successful, and some are unsuccessful because of Destiny. We suffer so much for our Destiny. Therefore, Destiny needs to know very well.

In fact, Destiny is a self-made system created by an event, which is depending on the space, time, situation, environment, becomes effective through the causation, reasoning, action-reaction of consecutive events, and inevitably determines future events.

In the cosmic field, Destiny is a kind of involuntary force and like a self-created program, that arise at the beginning of the creation of the world through the beginning of the Great Explosion! And it is the determinant and regulator of the inevitable future events.

Each produced event is the apparent cause of the various events that occur in the future in connection with it which is automatically predetermined at the beginning of the creation of the universe.

An experiment:

For ease of understanding, let's say with a simple pattern: The rotation of the rotating wheel with an arrow blade is determined automatically as soon as it starts, when and where the sharp angle of the arrow blade will go. This is Destiny and predetermined event. It is almost the same as in the case of Great Creation or cosmic events. Its Destiny has been determined automatically at the beginning of creation.

As soon as the stick starts rotating in a circle, it is determined by itself when and where it will stop.

Fig. 1

Every living being is a part of this universe and we are in this universe. So Destiny is active in different ways, inside and outside of us, knowingly and unknowingly. All our activities, including our thoughts, desires are contribution of Destiny, and are part of the cosmic or worldly activities.

We are also a part of this world. Here, fortunately or incidentally some are rich --- some are poor, some are noble and some are dishonest. That is to say, there is no controller or determinant and controlling entity behind it, there is a self-created automatic physical system.

Creation begins with the Great Explosion, and in that instant the Destiny is born (That's how TIME is born). Destiny is, in fact, an abstract existence. For example, a series of events occur after a bomb has exploded. In addition to the energy and force created by the explosion, there is another thing that is the pre-determinant of all subsequent events. This automatically determines the moment of the explosion, what happens next and what happens next. Consecutive, one after other. Everything that is happening in this world and everything that will happen, determined almost automatically at the moment of the Great Explosion!

Another experiment:

A place was chosen where there would be no outside influence. Now, a cracker or a very small bomb was taken, and several small pieces of marble or stone were placed around it and wrapped in paper so that the flap of the cracker or bomb would stick out.

Now connect the fire to the cracker or bomb in the middle of the previously mentioned clean space and explode.

In the moment after the explosion, pieces of marble or stone were scattered around at different speeds in different ways. Notice that each piece of marble or stone has received a different phase. Someone is standing in one place and spinning like a wheel, someone has fallen and hit another piece and as a result that piece of stone has broken and become many pieces.

If we look closely, we will face many strange events. Many such incidents can be seen to happen at the same time. Someone's behavior is not exactly the same as someone else's behavior. What will be the state of any of them, what speed or what will happen, everyone's Destiny is automatically determined at the moment of the explosion.

In the same way, everything that is happening, has happened, and will happen — the root cause of everything lies in the moment of the Big Bang. This is called Destiny.

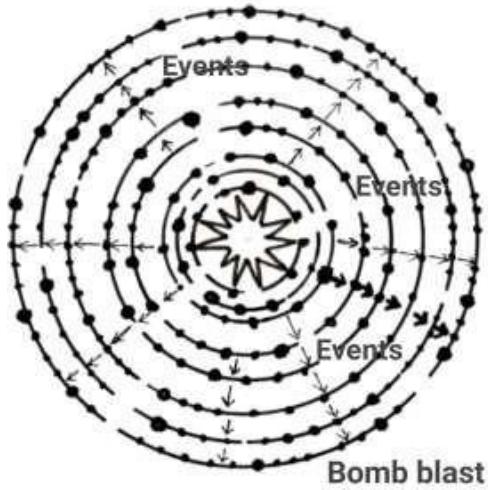

Fig. 2

As soon as a bomb explodes, it is automatically determined when, where and how the subsequent events born out of that explosion will occur.

Whatever the structure of the object, the environmental conditions, and the applied force, its Destiny is determined as soon as the event begins. In any case, if the structure of the object, the environmental conditions and the applied force are different, then their Destiny will also be different. But in both cases their Destiny will be decided as soon as the event begins.

Multiple events are born from one event. Again, many more events are taking place after that one. Thus the successive stream of events continues. In the present scenario, various events arising from an event cannot be followed in a definite way. External or other events created outside, objects, energies, etc., that will disrupt or affect its or their movement, or alter the course of events.

So, the examples mentioned here are just examples. These examples will not have much resemblance to the main event I discussed. The main point being discussed is the great explosion at the beginning of the universe's creation! Which is known as the Big Bang. In this case, no external object, force or event is missing to affect the original event and the numerous events that have arisen from it. Here the course of events is proceeding in a self-determined way.

Formula:

$d = b > efp$ $d = \text{Destiny}$

$b = \text{Big Bang}$

$efp = e = \text{Energy} + f = \text{Force} + p = \text{The pre-determining power of future events arising from the main event (Big bang)}$

CONCLUSION:

Destiny is a cosmic system which is the pre-determinant of everything. That happened, that is happening, and that will happen in the future in this universe all are predetermined by this cosmic systems, which was created automatically by the Big Bang at the moment of the birth of this universe.

Everything we do here is being forced to do by this cosmic system called Destiny. We do not have the power to do anything in a free way. Whatever is happening here, destiny is at the root of everything, destiny is responsible for everything. This Destiny is predetermined and unchangeable. Many bad things and good things are happening here because of this Destiny. Our existence is actually the contribution of Destiny.

'TIME' : ACTUALLY WHAT IT IS
by Maharshi MahaManas

TIME is nothing but the concept of the measure of the distance between any two actions or events.

The gap between two or more objects or particles is called space. And the distance indicator space between two actions or events is 'Time'. 'Time is also a kind of space, it is the distance-space between two actions or events.

The Theory of Time

Chapter 15

In order to better understand this religion based on logic and science, one has to know about the Scientific articles that are included in 'MahaVad', the greatest doctrine of this age. So in this book some of his articles are given. These scientific articles have been published in various international science journals.

S-Existence: There is another Existence of Everything

(This scientific article will help you to understand the supernatural soul or spirit)

'S-Existence' is another existence of everything. Lack of appropriate word has caused to mark or name this unearthly existence— **'Sumeru-Existence'**, briefly— **'S-Existence'**. This **'S-Existence'** identity is too much subtle –unperceived – unfelt.

From fundamental particle to every element, – matter and energy have two different existences in its form. The

formations of matter or element, components, quality, energy etc all are present in its **'S-Existence'**. Generally, this **'S- Existence'** is inseparable mixed with material existence.

'S-Existence' is another existence of everything Lack of appropriate word has caused to mark or name this unearthly existence— **'S-Existence'**. This **'S-Existence'** identity is too much subtle –unperceived – unfelt.

From fundamental particle to every element, – matter and energy have two different existences in its form. The formations of matter or element, components, quality, energy etc all are present in its **'S-Existence'**. Generally, this **'S-Existence'** is inseparable mixed with material existence.

In case of living body it is same; it also has **'S- Existence'** –unearthly body or supernatural body. **'S- Existence'** of mind, – vital energy and sense etc are also present in the supernatural body.

With matter and energy, their **'S-Existence'** is also mixed inseparably. With support of material body or matter, mixed with it— its **'S-Existence'** is present. Without **'S-Existence'** any matter— anything cannot be there. If there is change in matter or body's shape – quality, similar change takes place in its **'S-Existence'**. This supernatural body or matter is a true copy of material body or matter, which is not a known matter –is an unknown and different matter –is made of unearthly matter.

When there is an action and reaction between a matter and other matter, then there takes place similar action and reaction and change between their **'S-Existence'**. When a matter comes into contact with its antimatter, –both the matters as soon as the union of their **'S-Existences'** –both loses their independent existence. As a result of this union, can occur the dispersion of

energy, and can be created different kinds of particles, new matters –elements and energy – depending on the condition and velocity of the union.

When any matter or particle of matter has repeated collisions with other matter or matter-particle, then their S-Existences will put a contrary impression* on each other's 'S-Existence'. Everyone's 'S-Existence' will carry the contrary impression of other 'S-Existence', till the time– the carrier matter or matter-particle and along with their S-Existence's disorder– deformity or change takes place.

* This contrary impression is not like two dimensional stamp-print or reverse-print. This contrary impression is a thorough –three (or more) dimensional impression of super (natural) existence which is externally inactive and just opposite impression existence of 'S-Existence' of any material thing.

From that contrary impression of 'S-Existence' (CISE) which is a burden to the matter's 'S-Existence', many more copy of that can be produced, –then only if repeated collisions takes place with the matter or element-particle carrying that impression and similar or other matters or element particles. But in this case, contrary impression of that impression of 'S-Existence' will not be made.

Depending on other matter's 'S- Existence', this contrary impression of 'S- Existence' (CISE) is merely a (material or supernatural) bodiless impression. As it is not having its own body, it is unable to impress any contrary impression on others. As a result of collisions, from that– many similar copies can be made, but gradually those copies will get more and more fineness or subtlety. From one particle to other particle, from that to other –if in this way gradually that copy is made, then gradually the copy of 'CISE' will become finer to finest.

Usually this 'CISE' is inactive –quality less. But anyhow if this 'CISE' enters the living body, then by the help of the software of bio-system, is able to get a supernatural body.

The 'CISE' on entering the living body, reaches the particular center of brain with help of nervous system. There with the special work capability of the software of bio-system, that copy of impression (CISE) gets the supernatural body. That is to say, 'CISE' turns into contrary super (natural) body or existence. Then it is not merely inactive impression, an active supernatural (body or matter) existence – endowed with quality and character –properties. The birth that it took from matter or element as 'CISE', and then it becomes contrary S- Existence of that matter or element.

Then, that contrary S-Existences spread through the circulatory system and nervous system— throughout the creature's whole body —similar to defense force. In search of enemy— culprit or evildoer those who are causes of diseases, — thoroughly searching the whole body, meeting its contrary existence — immediately it jumps on that. As a result, disappear the identity of both.

The subject is absolutely new, so let's repeat in short, —when the CISEs come into contact with the body's nervous system, —in electrical speed, they reach a particular center of the brain. There, with the help of bio-system's software, the CISEs get supernatural bodies or 'S-Existence' —according to their quality — nature —property, everyone. From there, following the defense system of the living body, —they spread out the sickly parts of the body or throughout the body —in search of alike-contrary thing which are poisonous — harmful for body.

If the nervous system and the software of the body is weak, undisciplined or incapable, that 'CISE' may not be able to get a super (natural) body or existence and not be able to follow its working role properly.

After entering of 'CISE' (of anything) in the body, if that 'CISE' converts to 'S-Existence' with the help of body-mechanism and if that 'S-Existence' does not meet the contrary existence in the body, —in that case if the number of S-Existences are too many, then they are the contrary existence of which matter or element, who were able to create as like action of poisoning in the body, these (contrary) S-Existences are able to create contrary or opposite symptom of poisoning of that thing. For example, if main thing or matter is able to create constipation, then its contrary 'S-Existence' (about which is discussing) will create diarrhea.

But if these S-Existences' number or amount is less in poisonous limit, then they will do similar activity, but it will be not so acute —not be unhealthy. Rather relieving constipation —will help to clear the bowels. That will work like mild purgative.

This action will not be stable. The cause which created the constipation, that cause will not be stopped in this case.

If the number of (contrary) 'S-Existence' is too low, then any action may not be felt. Except it, cause behind the constipation (or other incident) if there is present any strong reason or poison, in that case, the 'CSE' may not be successful in its

work. But if this 'CSE' comes in contact with a thing which is similar in every respect (form –quality –character etc) in the body, then action of poisoning can be created depending on their number or amount.

In the body, when 'CSE's are able to do their own work, at the end of work –end their longevity.

But those who do not get the opportunity of work, they slowly go out from the body through different paths or outlets. But everyone has its own life period.

Matter is material form of its 'S-Existence'. Any matter can never be without its 'S-Existence'. In case of energy, it is same. But the 'S-Existence' in some cases, without its material form, that is without the material body– able to remain, depending on some unearthly things. If any 'S-Existence' meets with its (exact) contrary 'S-Existence', the identity of both disappears. Along with that, if they have the material identity or existence, that also destroys.

Just like its material body, this 'S-Existence' is made by combination of quality-full unearthly particles. Atom and its inner energies and particles, fundamental particle and all other particles have 'S-Existence'. Every particle of matter or element has the similar 'S- Existence' –present in it.

The 'CISE' that entering the body– after getting the similar 'S-Existence', connecting with the harmful contrary existence, –both disappeared and destroyed. – This is the principle of 'MahaPathy' medicine's recovery procedure. I shall make an acquaintance with 'MahaPathy' next time. MahaPathy (briefly MPathy) –the super excellent system of medicine came into existence based on this theory.

If repeated collisions takes place between two molecules or particles of similar nature and quality –for some times, –does not produce contrary impression on each others 'S-Existence'. No particle accepts its contrary impression –does not accept its contrary impression on it. Here we have to keep in mind, (contrary) impression of 'S-Existence' (CISE) and 'S- Existence' –not same.

Now what will happen, if bodily enemy or poisonous matter or anything causing the action of poisoning –instead of being exact contrary of medicine if it is partly contrary –then?

Contrary 'S-Existence' (CSE) in medicine form (produced from CISE), after searching in the body, if does not meet its exact contrary existence, meets any partly (largely) contrary existence, then also it jumps to get united –in extreme attraction of union. In that case— depending on both's energy, amount, quality and strength along with body's condition of that time, can cause various incidents. Can occur partly alleviation or partly cure. If capable, the rest of part-body can manage oneself. Result of union can create— new matters –particles, and dispersion of rays can take place at different levels.

Except it, if any harmful poisonous germ is present in body and be attacked by that medicine, then it, for the self-defence, can assume very violent angry-looking, and can create indiscipline in bodily system. Or by escaping, can go exterior portion of the body like skin eruption. Or can try to self-hide, just like the snail.

Another thing is, if contrary impression (CISE) of any matter or element is applied repeatedly on any sensitive person, in that case, action of poisoning can take place and symptom of that poisoning can be seen. Those (medicine form) CISEs after becoming 'S- Existence' in the person's body, if they do not meet the contrary impression or contrary 'S-Existence', then also they (because of their majority) can create action of poisoning by themselves.

After any poison enters the body, medicine (CISE) prepared from that poison, at many times— is incapable of making that poison inactive. One of reasons of this is— many times, after any poison enters the body, connecting with other poisons or things present in the body, –that poison takes different form. For this reason, same poison takes different form in different bodies. As a result, the medicines (CISE) created from that poison is incapable of making inactive –the same poison. Then that has to be made inactive by any other medicine.

But anyhow, if the (mixed or unmixed) poison, is collected from body, and medicine (CISE) is made from that, –if that medicine is entered into the body, then that poison becomes inactive.

Except that, any poison, after entering the body, gradually changes take place in its form –quality –nature etc with the passing of time. The contrary 'S-Existence' of that changed condition's poison can make this changed poison— appropriately inactive (within the body).

The noticeable thing is— due to eating some amount of calcium –along with other symptoms, the secretion of bile from gall bladder will increase and with it— the temperature of the body will increase. But the medicine (CISE) prepared from that calcium, as a result of eating a lot of that medicine repeatedly, –the symptoms appeared in the body, that is opposite (symptoms) to material calcium. How it happens?

The happening is—, in the body, the particles of contrary ‘S-Existence’ (CSE) of calcium destroy the equal amount of calcium particles of the body. As a result, deficiency of calcium takes place, in the body. The contrary S-Existences (in a large amount) of calcium particles— create that kind of action of poisoning— in the body that is just opposite symptom of material calcium.

If that CSEs are not able to meet with similar or almost similar minute— contrary existence (matter or element), in the body, or remain some quantity –after meeting with contrary existence, then they create action or action of poisoning of different degrees –depending on their existing amount in the body.

If there is present –from before, any matter or element –endowed with similar action of poisoning, – that is to say, if similar action of poisoning is all ready present in the body, in that case, by their united action of poisoning— intense action of poisoning takes place – in the body. In such a condition, to remedy this intens

action of poisoning, the defense system of the body— creates more quantity of antidotes or antitoxins. As a result of that, the poison produced from medicine, along with former poison –both are destroyed or disappeared. Besides, as medicine form ‘CSE’ has no material body, –the span of its life is finished in a short time.

Evidence:

If Kirlian photography is true then evidence of this theory can be found largely in Kirlian photography. The whole picture of a leaf can be seen in Kirlian photography even after the leaf of a tree has been cut in half. Homeopathic medicine is another significant evidence of S-Existence.

Conclusion:

The nanoparticle medicine or nanomedicine that is now in vogue, if the nanomedicine is prepared in a special process, by repeated mixing and friction then it becomes superior to ordinary nanomedicine. This method will create S-existence and it's contrary existence. If nanomedicine is made in this way from diseased cells or toxins in the body, the nanomedicine reaches the body and combines with the toxin or diseased cell, destroying both. In this way we can benefit through the practical application of S-existence. I am hopeful that the successful use of this S-existence in the future will enable people to benefit in many more ways.

Chapter 16

In order to better understand this religion based on logic and science, one has to know about the science articles that are included in 'Mahabad', the greatest doctrine of this age. So in this book some of his articles are given. These scientific articles have been published in various international science journals.

Unveiling the truth of 'Time' and 'Time travel' along the path of science!

'Time' is nothing but a virtual scale as a measurer of the distance or space or length between successive actions or events. 'Time' comes into existence from any motion or action. Where there is no action or motion, there is no such thing

as 'Time'. The existence of time is almost inextricably linked with speed or action. Thus 'Time' can be called a dynamic existence. Cosmic time and space were born with the creation (Big Bang) of the universe. Whenever these successive cosmic events cease, so does the existence of time. In this gigantic cosmic film consisting of one frame after another, we are nothing but a short-lived characters. As a character in a mega serial drama in this predetermined worldly movie, it is not at all possible for you to go to the past or the future of this movie.

Many doctrines of different scientists, including Einstein, about Time (Such as Time is a fourth dimension, Spacetime, etc.) as a science, are in fact theories and hypotheses. The existence of many of them depends only on mathematics. In reality, they may or may not exist. Possibilities and realities are not one thing. There is a possibility of revealing the truth with the help of Math, but there is no guarantee of reaching the truth in all cases. The time has not yet come to say the last word about 'Light', but the last word can be said about 'Time'. Because 'Time' is not complicated at all. We have complicated it. To introduce its own simple form, today I have started this writing.

Time in its own reality:

'Time' is an existence as a measure of the distance or space or length between successive actions or events. Time is born from motion or action. Where there is no action or motion, there is no 'Time'. The existence of Time is almost uniformly integrated with motion or action. So 'Time' is a dynamic existence.

In a word, TIME is nothing but the concept of the length of events, that happen one after the other.

Although 'Time' and 'Space' both are spaces form existence, the 'Time' is the space-form between one action to another or from one state of a continuous action to another. Space is the zero or apparent space between objects or particles and the space or the apparent space inside something.

Somewhat like the mind, mind is an entity arising from the action of the brain, so is time ~ a special entity arising from any form of action. Visually, a non-existent existence.

If there is an action, time will be created from it. And if the action repeats itself continuously, in a certain speed and in a certain way, through a certain set of rules and regulations, then only a sensible and measurable time is created. This form can be used to measure the lifespan and action-span of other objects, individuals, etc. on the basis of that form of time.

In short, in order to facilitate the understanding of the various parts or episodes of the act of rotating the earth or any action taking place in such a loop like a clock, the length of the event is called 'Time' by imagining an existence as a span of action.

The lifespan or age of a thing, usually from its birth to death or creation to the end or a certain part of its lifespan, refers to its duration as a measurable period arising from the regular motion of the earth. Every object, substance and organism has its own action and (even if it is in the calculation of the time of the earth or something else) it has its own time.

In practical terms, when we say 'morning-evening', we do not only refer to time, but also to a particular or a group of natural and related activities or events, environments and situations that occur in a regular cycle at that particular time.

We are accustomed to seeing time in its various episodes, in the form of natural or material changes. That form is revealed to us in the form of time. But there really is no sensible form of time. The concept of our time is born out of the changing nature and successive stream of events, or we gain an idea of time by noticing the change of clockwise position.

In this context, destiny, like time, is a non-existent special existence arising from action. Since the beginning of creation, both cosmic time and destiny have come into existence. And in many cases, when we say 'time', we actually mean 'destiny or fate'. With the creation of the universe, the two entities of 'destiny or fate' and 'time' existences were born at the same time, and both are in harmony with the flow of worldly events. The existence of 'space' was also born with them. See my separate articles: 'That's what actually Destiny is' and 'Space'.

In a nutshell, actually the destiny is a self-created automatic worldly system which came into existence with the creation of the universe through the great explosion (Big Bang).

In this system, it is automatically determined at the moment of the explosion --- when and where --- what would happen in the traditional event. Its name is Destiny.

It is said, time imprint, time power, time gift etc. As if time has its own power or ability by which it can do many things. In reality there is no independent power or ability of time, no quality. Everything that is happening here is happening one after the other through a series of action-reaction- interactions. Here time has no distinct power and no role.

In a series of endless activities or events, one action after another or events are happening. One by one, a special form, a special loss or gain occurs in one of the episodes of the sequence of events that take place gradually through different interactions.

We measure them in time, bringing the sequence of events into our imagination. We say that what have to be happen will happen at the right time. We say, when

the time comes, it will happen etc. But that doesn't mean that time will tell. The fact that time is a powerful entity has not yet been proven. In an article about Destiny, I have covered this in detail.

In this context, I say that destiny, like time, is a seemingly non-existent special existence arising from action. As soon as Creation begins, they, that is, both worldly time and destiny, come into existence. And because they are so closely intertwined, we are unable to understand their separate existence.

How fast are we? In addition to our activities and mobility, we are under the motion of the earth. We are connected with the motion of the solar system, not just the earth. Again, we are moving at unimaginable speeds through the entire cosmic motion, including our nebula.

Any object or creature with high activity or speed, compared to a similar object or creature with low activity or slow motion, if there is no irregularity or mishap, will accomplish its specific task long ago, will reach the goal, will have consequences, will be eroded, will age and will run out or attain fusion. That means its/his lifespan will be much shorter than the other, due to its/his rapid aging based on its/ his own time.

However, if an organism or a person with a long life is highly active, it will not age rapidly unless it is afflicted with a disease, if it lacks the necessary food and drink, and if no non-occurrence occurs. It should be kept in mind that as soon as every living thing and object or instrument is created, its lifespan is determined on the basis of its structure and composition, etc. It is determined how long it will remain active and exist.

However, conventional scientific sources say that if the activity or speed of an object or person is the fastest--- approaching the speed of light, then its time will continue to be very slow. As a result, its age will continue to grow very slowly. Unless an accident occurs, its lifespan or longevity will be many times longer than that of a similar object or person with normal motion. However, if an object or person gains the same speed as the speed of light, then it will no longer exist as an object or a person.

As we have seen in my own cosmogony, everything has become fixed from the beginning. Where will it happen, when will it happen. The time of the universe has begun with the beginning of Creation.

As soon as you are born, the clock of your time starts ticking. Once a device is made, it is determined (depending on the environmental conditions and its components) how long it will serve and how long it will survive with its uniqueness. The same is true of our body organs.

Is time just a psychological or conceptual existence of man, or is it a reality? Whether one realizes it or not, time exists in its own existence. Rather sometimes people's perceptions about time can be misleading. Sometimes a short time can seem like a lot of time to someone. Again, the opposite can happen.

If an object or thing is slow or fast, it may take a long time or a short time to get from one (event) position to another (event) position (depending on the measurable time generated from another event that is constantly moving).

That active or moving object has its own time but depends on its activity or speed. There, if its/ his speed slows down, its/ his time will also slow down. If its/ his speed is fast, its/ his time will also be fast. There will be no exceptions or vice versa. That is, if its/ his speed is fast, its/ his time will not slow down.

There are two types of relativity. The first is comparative judgment between multiple subjects. And the second is the comparative judgment of something with its own in different situations

The relativity I am referring to here is the relativity of something to itself. Here it is being compared with something of high speed or activity and its relatively low speed or activity.

Slowing down in time means getting longer. Generally, if one's speed is faster than before, then the speed of one's time will also be faster than before. And as a result, his lifespan will be reduced. As the speed or activity of an object increases, its lifespan will decrease due to more erosion.

However, according to Einstein, if something moves faster than before, its time will decrease and its lifespan will increase. Now the question is, if his own speed does not slow down, how does his (own) time slow down!

If an object or something is slow or fast, it may take a long time or a short time to move from one (event) state to another (event) state (depending on the measurable time generated from another regularly moving event).

That moving object has its own time but depends on its speed. There, if its speed slows down, its time will also slow down. If its speed is fast then its time will also be fast. There will be no exceptions or vice versa. That is, if its speed is fast, its time will not be slow. Time is born out of the motion or activity of something. So the speed of time is always consistent with the speed or activity of something, Its transgression never happens.

If no external force is applied on a moving object, the 'Time' generated by the motion of the object will remain normal. Its time will not slow or fast. If an object is moving in space (although space is not actually zero), its loss will be less, and its lifespan will be much longer, this is the idea of many.

But if the object is moving very fast, It will come in contact with a very large amount of cosmic particles, as a result, lots of cosmic particles or objects will be associated with it. And as a result its speed will be interrupted and its condition will change.

That high-velocity object will gradually fill up with cosmic particles. That is, the amount of cosmic particles in it will continue to increase and the normal state of the object will continue to change gradually. As a result, the lifespan of the object will gradually decrease. And the shorter the lifespan, the faster the time. Its time will soon run out.

'Time Travel' : is it possible?

Time is nothing but the length of events that happen one after the other.

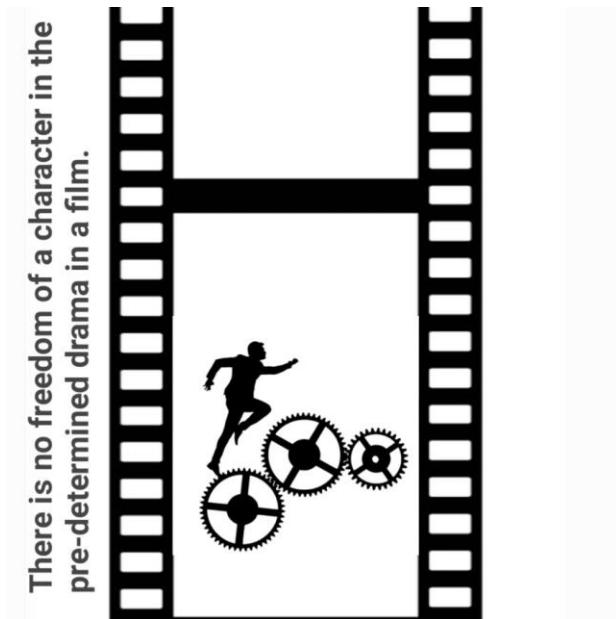

Time is born out of an event or an action of something. Where there is no action or event, there is no time.

With the creation of the universe, cosmic time and space are born. As soon as these cosmic events, which are happening successively one after the other, stop, time will also stop.

You are nothing but a short-lived character in this gigantic cosmic film, consisting of one frame after another.

In this predefined worldly movie, as a character in a mega serial drama, it is not possible for you to go to the past or the future of this movie.

So, 'Time travel' is an unrealistic fantasy. Surprisingly some people see science in this

fantasy! Also there are many scientists among them !

They also continue to call various hypotheses about time as science. In reality, time is nothing but the length of events that happen one after the other.

Everything that is happening in the universe, including the multi-universe, is predetermined (Please see my article about 'Destiny'). Just like a film or a video.

As it's possible to watch a film or video by moving forward or backward, it may even be possible for a viewer outside the cosmos to watch the film or video of this cosmic-event-stream by moving forward or backward.

Because of that, neither you nor I, as a character in this video, can't forward or backward the film or video as a viewer outside the film or video. And no one can go into the past or the future by staying in this movie. So, 'Time Travel' is an unrealistic idea.

Conclusion:

If we can see 'Time' in its own reality, then it would seem childish play to travel to the past and future of Time.

Chapter 17

Mind is like a blooming lotus

Mind is our main topic. Here, who (or which) is saying is Mind, and you, who (or which) is listening is also Mind. The principal creator and driver of our world, and also of the cosmos –is Mind. A little and sweet name– Mind! In this world, whatever we are seeing – whatever is happening, whatever has been created and is creating, behind all creation– there is Mind. Only creatures have Mind, –not that, there is a cosmic mind. The Mind of highest conscious level!

We are human beings, because we have wakeful– conscious Mind. All other creatures have also Mind, but their Minds are different lower conscious level's Minds. They have not (human) conscious Mind.

Mind is like a computer-OS-software, with many active and inactive application softwares. Whole body with brain– with nervous system and sense organs –is like computer-hardware. At present, in our mental world, there we have two active partner Minds. One is pre-human conscious Mind or sub-conscious Mind, and another is conscious Mind or human conscious Mind.

In our mental world, this sub-conscious Mind is most bloomed or developed, and active. Now it is engaged in work in the main role. It has some special qualities. If we can utilize them properly, in many cases, we can be benefited and can achieve

success. But this Mind has some bad qualities, for that, we need to control this Mind.

In case of greater number human beings, gradually developing or blooming (human) conscious Mind –till now, is a little developed (bloomed) and a little active. In case of human beings, it has an important role. We have (human) conscious Mind; this is why we are human beings. Still it is not enough developed. We need to develop our Mind, to be enough developed human beings.

Two Minds are living together as like as spouse, reasonable (human) conscious Mind (The Mind of male nature) as a husband, and blind-emotional sub-conscious Mind (The Mind of female nature) as a wife. Depending on their characters, I think, they are similar to Hindu Goddess 'Kali' and lord 'Shiva' –largely. Remember the picture of 'Kali' and 'Shiva' where 'Shiva' is about sleeping under the foot of 'Kali'!

In appearance a human being –female or male, however be s/he, female and male (more or less) both natures are present there. As much as conscious Mind is developed in a human being, so much manly human is s/he. On the other hand, as less as conscious Mind is developed in a human being, so much womanly human is s/he.

As much as our conscious Mind will be developed, so much we will be developed human beings. In the aim of fully developed human beings, to cause to occur the development of conscious Mind –is our inherent aim of life. By this conscious Mind –consciously, we have to utilize the subconscious Mind, for its good qualities, and we have to control it for its bad qualities.

But most of human beings are not aware about their Mind, due to lack of enough development –enough consciousness. Regarding human development – development of our country and society, we have seen many endeavors, but in the root of all development, there is Mind. We have no endeavor for true development of our Mind.

Spirit or 'Atma' means inner self, which is Mind. Whether it human bodied or not, human Mind or higher conscious Mind, or God Mind, a conscious existence which can feel –can think –is Mind.

Whole Mind is like a blooming lotus. Our present active Minds (conscious and sub-conscious Minds) are not whole Mind. Whole Mind is somewhat like a

blooming lotus. There are many parts or partner Minds, and many state or stages of mental development. Whole Mind is formed by many active and inactive Minds.

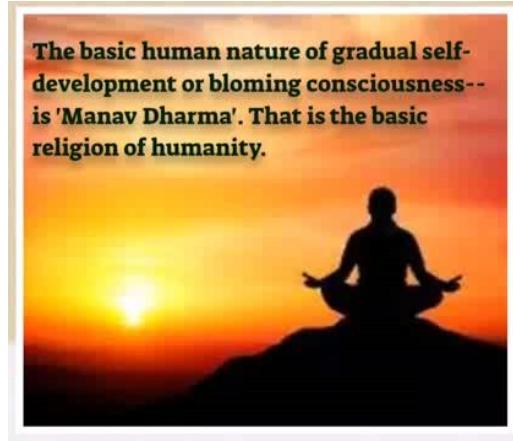

Entire Mind is like a blooming lotus –largely. Lotus like whole Mind –containing various partner Minds of different conscious level, through different blooming state or stages, –according to serial order of development, step by step –(one after one Mind) blooms gradually.

From latent conscious state, gradually worm or insect conscious Mind, and then reptile conscious Mind blooms one after one. At the next step or stage of blooming petals of lotus like Mind, animal conscious Mind is opened there. After that, previous-human (sub) conscious Mind blooms gradually. And in next turn, human conscious petals (Mind) open slowly. Gradually, Deva (super human) conscious Mind, after that, MahaDeva (great) conscious Mind opens little by little. In this way– all petals bloom one by one. The goal is full-consciousness.

To make understand, here I have described a few mentionable steps and forms of Minds. In this lotus like Mind, there are many more mental state and different level of conscious Minds.

The last serial order of blooming consciousness is God-conscious Mind or God-Mind. Even though, there is an ultimate state of lotus-Mind, when all petals will be bloomed and when all petals will fall down, then the remaining part with seed –is the original conscious Mind. That is ‘Paramatma.’ From that seed re-creation will be taken place.

Those who are conscious about their own Mind, with inner world also conscious about outer world, and conscious about the cosmic Mind (Viswa-Atma), they are in fact enough conscious human beings.

Chapter 18

What Manav Dharma (natural human religion) is?

In the open school of the world, in this worldly education system, by becoming aware-conscious, logical-loving and truth-loving by the knowledge-experience of the predecessors~ through strife-resistance, through obstacles-adversity, through action and enjoyment, through gaining knowledge-experience. It is the natural basic religion of man to move forward on the path of gradual mental development and consciousness -development by taking education spontaneously. And, this is 'Manav Dharma' (basic natural human religion).

We are all on the same path ~the path of evolving consciousness. Yet today, some are going on knowingly, and some are going on unknowingly. Some backwards and some forwards. Some are moving very slowly, and some are moving very fast. Some have deviated from basic human religion, stumbled on the dark path of unconsciousness due to ignorance, some have somehow crossed this path through extreme pain and sickness, and some have followed

the path of enlightenment in the light of basic human religion. Moving forward towards full-fledged development with vigor~ this is the same path. Some are not aware of 'ManavDharma' (basic human religion or 'humanism'), some are not aware of it, and some are consciously practicing 'ManavDharma'/ 'humanism'.

Now the question is, what is the reason for such inconsistency? And, what is the reason for such misery, deviating from the normal rhythmic mainstream of basic human religion?

One of the main reasons for this is the artificial religion imposed on people.

There is only one world, there is only one path, but there are different people at different stages for the difference of knowledge and consciousness, and this path and the world feel different to different people. Not only that, but due to lack of enough knowledge and consciousness this path~ some people make this world a hell of misery and pain.

This is largely due to the superstitious conventional religion run by selfish people. Religion~ which is supposed to lead us to the path of mental development or human development, on the contrary, if that religion leads us astray - downward, then can the falsehood be called religion?

A class of cunning deceivers (non) human beings, in order to satisfy their basic interests, imprison Ignorant helpless fearful and greedy people in a cage called 'Religion' based on imaginary God, infiltrate religious blind-faith in people, lead people astray from the path of normal development. Deviating from the main goal of human life and the basic human religion causes the downfall of human.

If we want to be free from this ignorance-blind turmoil and move forward with ease and happiness, we have to move forward on the path of wisdom and consciousness- development, following the path of self (mind)-developmental religion based on 'ManavDharma' that is basic natural human religion' - 'MahaDharma'. The great religion has emerged to re-establish our basic human religion. The embodiment of abstract human religion is - 'MahaDharma'.

"The real human religion (ManavDharma) is that which man can live well by holding, can save others and can help others to move forward on the path of true mind-development as well. And this human religion is the 'MahaDharma' religion.

Now, many may question, what is the need to adopt and practice this 'super religion' based on basic human religion separately. The need for this, even though we have passed thousands of years, we have not yet developed enough. We are still in the whale that we were. We must first identify the biggest obstacles to the development of consciousness. These are~ conventional religion, monarchy (now politics), and corporate (business-trade system). They are always trying to fool us according to their needs. Human development is not their desire. When people become more aware of their defeat. Due to their manipulation, it has not been possible for us to develop as much as we are supposed to today.

MahaDharma is an excellent specialized (practical and theoretical) mind development education system. By which it is possible to overcome various adversities and bring about rapid mental development. The work of 'MahaDharma' is to make people healthy and aware and to lead us towards becoming fully developed human beings. Which is never possible by conventional education system or conventional religion (Priestly system). Hopefully, I have been able to explain to you what 'MahaDharma' really is, and what its purpose is.

I have already said that to deviate from our basic human religion (ManavDharma) that is, to deviate from the normal human developmental path of real human religion. This time I will say that it is about gaining humanity.

Just as animals are born with animal Dharma/ religion, so human beings are born with human religion. However, while animalism and bestiality are almost in favor of animals, they are not. The animal does not have to acquire the animal religion. People (in most cases) have to achieve humanity. They gains humanity through the path of basic human religion.

Only when one becomes a fully developed human being does one attain full humanity. Humanity is gained only when the human mind (conscious mind) develops sufficiently. Sufficient development of the human mind and full humanity are synonymous here.

Kindness, love, forgiveness, empathy, cooperation, etc. are just a part of ManavDharma/ humanity. When humanity gains, then they develop spontaneously. Then there is no need to impose it through education or conventional religion.

Due to the low level of consciousness and well-being of a person, there may be some differences between there nature and religion. Some may be a little ahead ~

some may be backward. Due to long-term lack of traditionally appropriate education and medical treatment and misdirection, due to the effects of poor education, some may have deformities due to illness, and even animal behavior. In that case it will be possible to bring them back to the mainstream with proper medical treatment.

Chapter 19

More about religion : natural Religion and imposed Religion or Priestly system

In the case of human beings, there are two types of religion. One is the religion of his nature, the other is the religion imposed artificially. The imposed religion is a artificial system created for the purpose of being applied to its subordinates or

followers. The imposed religion is made up of a number of subjects, such as philosophy, principles, discipline, practice, code of conduct, etc. Normal or natural religion is basically a simple and natural behavior of healthy people.

The conventional religion is a beautiful cage to keep ignorant and helpless people ignorant and foolish forever.

An imposed religion may be necessary for good living and proper rapid development. In fact, nature religion has some good qualities and some bad qualities. A well-imposed religion is needed to control those bad qualities and to bring about good change.

But the conventional imposed religion is not applied for these two purposes. Rather, this imposed religion misleads people and does not develop them. In order to overcome this lack of human beings, the religion of the age has emerged as the need of the time.

Many people confuse humanity and human-religion. So, something needs to be said about that here. Humanity is a human virtue or good qualities. In many, some of these good qualities are manifested, while others remain dormant.

Human religion (ManavDharma) is the natural religion of human beings. The nature of a healthy person is to strive for a better life and development. Development means development of mind.

But the conventional religion does not encourage or help the natural religion of human development, but instead tries to suppress it and lead people astray. The illusory things like gaining God, gaining God's grace, gaining heaven, etc., drive people blindly behind these objects. Religion traders speak truth in their mouths and chase people away from untruths like deceivers. Their religion should therefore be called unrighteous act, not suitable for human beings.

Although humanity is a part of human nature or natural religion (ManavDharma), many times due to illness, abnormal mental structure, and poor education, nature-religion may have some bad qualities, or may enter. As a result, there may be a lack of human qualities and manifestations of inhuman qualities.

Now, it is our duty to make arrangements for the solution and healing of human by an good imposed religion suitable for human development. And this is the purpose of the great religion~ MahaDharma.

This imposed religion is created by great sage of this time with good intentions. Development here refers to the development of the mind. And, at different stages of development, the natural religion also changes somewhat.

Now, if the regulators of that system or the people under it do not try to get rid of that bad side, they are only proud of the good side, then one day, that bad part will gradually increase and consume all the part. As a result, that good system will one day be destroyed.

For thousands of years, ignorant and helpless people have been subjugated to the superstitious (imposed) religion. In this long period of religious education, only the imprint of the glamor of fake civilization has been imprinted on the human being, the darkness of the mind has not diminished so much. People are still in the darkness that they were in. Conventional religion never wanted to develop the conscious mind of the people.

Conventional religion and monarchie (now politics) seek to establish each other in the interests of both. Dharma/ Religion (Priestly system), monarchy (Raj Tantra) and Trade system (Vaishya Tantra) are the three strong foundations pillars of fake human civilization. They are (more or less) determined to keep people semiconscious and blind, to use people as they please, and to control them. They do not want adequate development of human mind.

At one time, conventional religion may have been needed to control the primitive people, to make them socialized and disciplined. But with the passage of time, it has lost much of its relevance. Blind faith-based religion never helps people to move towards true knowledge and truth. The great sickness, the anarchy, the perversion, the gloomy crisis that is being observed all around today, has largely been created in the womb of this religion. If religion itself is ignorant-blind, corrupt, sick, deranged, how can the people under its rule be better! If everyone is happy with a couple of exceptional high class people, it will be very unfortunate!

Conviction or blind faith is responsible for most of the problems and crises in the world. Belief or blind faith is to think as certain truth of an idea about a person or a subject about which I have no knowledge. How dangerous and deadly this is, can be understood by looking around with a little watchful eye. If it is not understood, it will be because of that blind faith. Wise people know their ideas, beliefs and knowledge to be the seemingly true knowledge.

The greed for rewards and the fear of punishment can keep the beast and the lower conscious human beings under control. After a little bit of enlightenment, when the conscious mind develops a little, then people are no longer under the control of anyone by these. That is why religion and the directors of religion do not want the development of human consciousness. Greed for rewards such as gaining heaven and gaining the grace of God, and fearing the punishment of hell, They are more interested in keeping people semiconscious through absurd philosophical theories in the name of divine happiness.

In order to save the human race in today's miserable situation of the afflicted people, we want MahaDharma 'great religion' based on natural human religion. Religions that do not lead people astray, but lead them to become 'fully developed people'. Yes, it is already slowly making its debut! Now we have to welcome it in our own interest.

Chapter 20

About accepting/ adopting 'MahaDharma'

We are not interested in converting anyone. We wish only those who are like-minded, homosexual, and willing to embrace the great religion spontaneously.

Since Mahadharma is the basic religion of man, any human being can accept and practice 'Mahadharma' without abandoning his previous religion.

However, those who want to be active members, those who want to follow the Mahadharma fully, must abandon other doctrines - become completely Mahadhami / Mahadharmin.

Initiation will be given only to those who are willing to follow the 'Mahadharma' to the fullest, and who are willing to be active members of the Mahadharma Parliament.

The Great Religion Suitable for Those

Mahadharma is for those who have a similarity with the original melody of Mahadharma, those who love Mahadharma and accept it. Mahadharma is generally accepted by the free-minded rationalist, truth-loving, knowledge-seeking, self-developing people.

The path and method by which a person can realize himself — his own nature, be able to have a better life, and move faster towards the goal of becoming a fully developed human being — is the 'great religion'.

Mahadharma' is the modern human developmental religion free from blind faith. Humanism. Become a member. Build branches in your area. Extend a helping hand.

In the context of worship and adoration

Instead of the traditional puja-aradhana-prarthana in 'Mahadharma', there are: By practicing these regularly and diligently, people will be able to benefit in many ways, including enormous improvement.

However, from the old reforms, if a strong desire to worship arises in your mind - then, for the purpose of awakening yourself - worship yourself. Decorate your picture with garland-flower-sandalwood, put incense-lamp in front, look at your picture with fixed gaze. And, sing— 'Wake up --- wake up ---'. Meditate while singing. You can reap many benefits from this method.

By looking at the heart, realize yourself as the cosmic soul or part of God: the cosmic soul / God within yourself. This is the true worship of the cosmic soul or God.

In the context of initiation

ManabDharma: If you want to be initiated in 'MahaDharma', and if you do not have the opportunity to be initiated in the presence of Maharshi MahaManas, you can be self-initiated with a firm determination in mind. Or, sitting in Dhyanasana - it is possible to be initiated from the mind with the remembrance and refuge of Maharshi MahaManas.

Conclusion

If you do not agree with the main point of the doctrine of Maharshi MahaManas, you must understand that this is not for you. In that case, you go your own way, there is no room for debate.

However, if a person wishes to refute a Maharishi's opinion through reasoning, he can do so by applying his own reasoning, without comparing it with any

conventional religion, scripture or anyone else's statement, without mentioning any external context. Also, if you have any questions, please let us know. You must give your opinion in writing. You can also inform on our website. It is not possible to discuss verbally.

'MahaVad' and 'MahaDharma' never say the last word. Never say, what I am saying is the only truth! In this worldly system we are moving towards the goal of full consciousness. We are now at the human-consciousness-level. There is still a long way to go before we reach the goal. Standing somewhere in the middle of the path of development of consciousness, knowledge of the whole path is impossible.

He never claims to know the complete truth' like the superstitious person. He says that our religion is to move forward towards the goal of full truth by climbing the ladder of apparent truth. And so, he is occasionally seen to be updated and timely. 'MahaDharma' is the religion of the pioneering people - the moving Dharma/ religion.

In order to understand the meaning of this book, one has to go deep into its heart with a free mind. The whole book needs to be studied with deep attention.

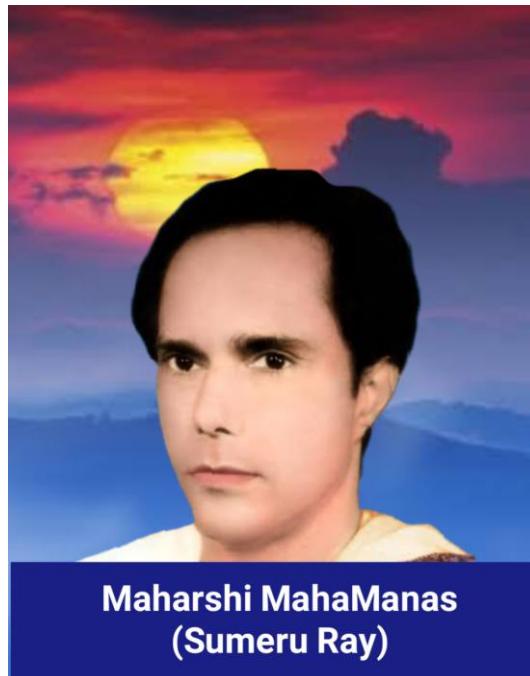

Reading in isolation: There will be a possibility of misunderstanding. Moreover, if we proceed with blind faith including violence-hatred-antagonism, nothing will be gained. Rather, he will be attacked by his own mind. Only science-conscious and spiritually-conscious free-minded self-developing people are able to rejoice in the revelation of this book.

It is not possible for everyone to agree on the philosophy of this book. It will suffice to be able to enjoy things as probabilistic only through the application of reasoning and judgment in an open mind. Philosophy is the theory, probability theory, thesis or hypothesis, theoretical science or philosophy of science in particular. It is against our policy to believe that philosophy is true.

In the end, an organization or society is going to be formed with the devoted devotees and disciples of Maharshi MahaManas. If you would like to be associated with this great activity, get in touch.

However, it is not possible to get complete knowledge from this little book. Only basic knowledge can be gained from this short published book. If you are interested to know more after reading this book, read the whole book later. Thank you. ~Editor

Chapter 21

**Maharshi MahaManas
(Sumeru Ray)**

AUTHOR'S PROFILE

Sumeru Ray alias Maharshi MahaManas

Maharshi MahaManas being sympathetic to the suffering of the helpless troubled

human he has worked tirelessly all his life to alleviate their misery and poverty.

He understood from his deep thinking and experience that the root cause of most of the problems and mishaps caused by human beings is lack of adequate knowledge and consciousness and illness of body and mind. Most problems will be solved if the human mind develops enough. That is why he has created an excellent and incomparable mind-development education system, its name is 'MahaManan' education.

If we can implement his multifaceted revolutionary work and thought, then there will surely be a radical change in human life. All that is needed for this is a strong team dedicated to the cause of real human development in the path shown by him.

He did not look at all our problems from above or from the surface. He has found the root cause of the problem and discovered the way to its real solution.

It would not be an exaggeration to call him the great sage of the modern times who sees the truth. He has made many scientific discoveries in his search for the truth of life and cosmic life.

It was not at all happy for him to continue his exploration for truth. He did not think of his own happiness and prosperity, but he had to endure a lot of hardships and obstacles for the welfare of human beings and went ahead tirelessly in search of the way of real liberation of the human beings. This is how the great doctrine of this time~ 'MahaVad' (Mahaism) was born.

Maharshi MahaManas is a free-minded rational sage of this millennium, master of reasonable spirituality, a multi-talented creator, researcher, writer, philosopher, awakener, educator, multifaceted free thinker and he is self-dedicated to real human improvement.

He is the creator of the great doctrine of the time 'MahaVad' (Mahaism) and the founder of an epoch-making new religion called 'MahaDharma' for real human development including true mind development.

He has extensive knowledge in fine arts, literature, meditation, yoga, healing arts, self-development programs, lyric, story and screenwriting, music composition and filmmaking, newspaper and magazine editing. If you are interested to know more about him, you should read his books. It will also be possible to know a lot about him by searching the internet.
